CHINA PLANS LEAGUE APPEAL

St. Louis Plane Near Endurance Mark

RAIN BEGINS WITH DAY IN CONQUEST

There, and Roseanna and her mother, Mrs. Roseanna, who is a well-known actress, were seen at the airport. The plane was seen to be in the air, and the rain was seen to be falling. The plane was seen to be in the air, and the rain was seen to be falling.

GERMAN LINER SETTING TIME MARK ON TRIP

By Ferdinand Kuhn, Jr. (Copyright, 1929, by New York Times) ON BOARD THE S.S. BREMEN, July 21. (Exclusive)—The Bremen, making American shores today, has set a new speed record. The ship, which is a German liner, has been seen to be in the air, and the rain was seen to be falling.

Farmer's Wife Is Killed by Mad Bull

HELEWILLE (Ont.) July 21. (P)—Mrs. Irvin Reid, 23 years of age, farmer's wife in Helenville township, has been killed by a bull. The bull, which is a mad bull, has been seen to be in the air, and the rain was seen to be falling.

FIVE THOUSAND MEN ON FLORIDA'S BATTLE LINE IN DRIVE ON FRUIT FLY

(This Los Angeles Times sent Mr. McGowan to Florida to make a first-hand investigation of the Mediterranean fruit-fly situation, and report the extent of this grave menace to the whole fruit and vegetable-growing industry of the United States, and to ascertain from all available data, the extent of the pest, the most practicable means whereby California and the rest of the country may adapt to the war of extermination against the fly. Mr. McGowan is a trained observer and writer of the "Mission Fly" and other notable works. This is the second of a series of articles on the fruit fly. The third will appear tomorrow.) BY JOHN STEVEN MCGOWAN The story of the war waged against the Mediterranean fruit fly in Florida furnishes plenty of thrills, as wars have a way of doing. The struggle has been, and is, to drive out a dreaded enemy. Therefore, it is war just as truly as war ever was between contending armies and navies of men, only that the fight against the fly calls for a conflict really more titanic.

Cloth and Pin Swallowed by Woman

SPRINGFIELD (Mo.) July 21. (P)—An open safety pin and a piece of pongee cloth eight inches wide and a yard long were removed from the esophagus of Mrs. Mary Blah, 30 years of age, of Springfield, by Drs. W. C. Cheek and Jay Sibley here yesterday. Relatives of the woman were unable to explain how Mrs. Blah happened to swallow the pin and cloth Saturday night. The pin's point was lodged in the wall of the tube with the cloth wedged down on top of it.

NANKING READY TO ASK INTERVENTION AS REDS FIRE ACROSS FRONTIER

SHANGHAI, July 21. (P)—Japanese press dispatches from Nanking late today said the Nationalist government had decided to appeal to the League of Nations for settlement of its controversy with soviet Russia growing out of its seizure of the Chinese Eastern Railway in Manchuria. The appeal is to be made in the event Russia "takes a positive action in connection with the Chinese Eastern Railway," the dispatch said. It was stated also the Ministry of Foreign Affairs telegraphed Chinese Ministers resident in countries signatory to the League of Nations covenant instructing them to inform the governments to which they are accredited of "Russia's unlawful attitude."

HOYT'S AIRPLANE WRECKED ON HOP BACK FROM NOME

EDMONTON (Alberta) July 21. (P)—Capt. Hoyt's attempted flight from Nome, Alaska, and return, has ended in a crash near Valmont, B. C. He was on his way here from White Horse, Yukon, on the third leg of his homeward trip yesterday. The United States army four-engine biplane, which was carrying Capt. Hoyt and his crew, was wrecked. Hoyt had been expected to arrive back at Mitchell Field, N. Y., at 11 a. m. today. He had been in the air for 12 hours, and had covered nearly 6000 miles. He left Mitchell Field at 2:30 p. m. New York time, Thursday. Bad weather in Alberta forced him down. He lost twelve hours on the northward flight and tried to make up lost time. A message sent from Fairbanks, Alaska, told of a "rough trip" to Nome and return, with rain and low clouds the entire distance. From Fairbanks Capt. Hoyt flew back to White Horse, a distance of 500 miles. He hopped off again at 11 a. m. yesterday, Yukon time, hoping to cover the 1100 miles to Edmonton at the 1100 miles more to Minneapolis by this morning. From Minneapolis he would have had 1025 miles more to New York.

DEATH RATE FOR NATION GAINS AS BIRTHS DECLINE

WASHINGTON, July 21. (P)—The death rate in the United States last year increased in comparison with 1927, while the birth rate decreased. The Department of Commerce announced today that the death rate for 1928 was 20.7 per 1000 population, compared with 19.7 in 1927, and the birth rate was 19.7 compared with 20.7. The figures for 1928, however, showed a substantial drop in the death rate. The birth rate, however, showed a slight increase. The Department of Commerce also announced that the death rate for 1928 was 20.7 per 1000 population, compared with 19.7 in 1927, and the birth rate was 19.7 compared with 20.7.

CHANCELLOR OF GERMANY FACES FIGHT FOR LIFE

BAD MERGENHEIM (Germany) July 21. (P)—The condition of Chancellor Hermann Mueller is now grave tonight. An emergency operation was performed this evening by Dr. Eusebio Enderlen, who hurriedly was called from Heidelberg. The Chancellor has been suffering from inflammation of the gall bladder. The operation, however, was successful. The Chancellor is now in a critical condition. The Chancellor is now in a critical condition.

COOLIES ENTOMBED IN MINE

SINGAPORE (Straits Settlements) July 21. (P)—Twenty-three Chinese coolies were entombed today in a tin mine at Parin, in Perak, when half the face of the open cast mine fell in. Efforts to dig out the entombed men were fruitless owing to the volume of debris. It was believed a subterranean river runs through the mine, which is one of the oldest in the Malay country. The coolies were entombed today in a tin mine at Parin, in Perak, when half the face of the open cast mine fell in. Efforts to dig out the entombed men were fruitless owing to the volume of debris. It was believed a subterranean river runs through the mine, which is one of the oldest in the Malay country.

YOUTHS HOLD UP GARAGE, GET CAR FOR BANDIT RAID

Following the theft of an automobile from a downtown garage early today, and two subsequent hold-ups, mobile squads from the Central Detective Bureau under the direction of Capt. A. A. Sanford swept through the city for hours this morning in an effort to arrest the two armed youths. The two bandits entered Ed's Auto Garage, 218 South Olive street, shortly after midnight, and after shaking M. R. Baker, night manager, with tire chains, locked him in a rear room and then placed a heavy oil container against the door. Baker was released by a customer who was attracted to the rear of the establishment by Baker's shout. An expensive sedan and more than \$150 were found missing, Baker told police. A few minutes later, Stephen Collins, proprietor of a gasoline station at Twenty-seventh street and Western avenue, was robbed of \$25 by a youth answering the description of one of the car bandits. Shotguns were used in the robbery, and the youths continued to be used through the late night and early morning hours in an effort to cope with the robbery situation, according to police officials.

BRITAIN JOINS WITH AMERICA IN URGING PEACE IN FAR EAST

WASHINGTON, July 21. (P)—Sir Eame Howard, British Ambassador, today informed Secretary Stimson that the British government fully associates itself with the Secretary's move to bring peace in the Sino-soviet controversy. Acting on instructions from Foreign Minister Henderson, the Ambassador delivered the formal note to the State Department and it was immediately communicated to Secretary Stimson. Sir Eame, representing one of the four powers which were parties to the Pan-Pacific treaty of 1923, was consulted Thursday by Mr. Stimson in connection with his action in calling to the attention of the soviet and China their obligations under the Kellogg antiwar treaty. The French and Japanese Ambassadors also were brought into the conferences as representing powers party to the treaty, which binds them to confer when peace is threatened in the East. The British note said the government is "happy to associate itself with the action of the other three powers."

HOOPER PLANS TO RETURN HOME BY NOON TODAY

MADISON (Va.) July 21. (P)—President Hoover planned tonight to return to the White House by noon tomorrow after a week-end spent with members of his family and guests at his fishing preserve in the Blue Ridge Mountains near here. Construction of a swimming pool made by damming the Rapidan River under the direction of the Executive who, aided in its building, marked an otherwise uneventful week-end.

TWO BOYS DROWNED

PEACEDERO, July 21. (P)—Two San Francisco boys were drowned today in Peacedero Creek, eight miles from here. Edwin Allen, 10 years of age, fell from a raft into the pool and his companion, James W. Curran, 14, dove into the water in a fatal attempt to rescue him.

NEW SHIP TESTED FOR AIR-RAIL LINE

ROOSEVELT FIELD (N. Y.) July 21. (Exclusive)—The new eighteen-passenger twin-engine Curtiss-Condor, which is to be turned over to Transcontinental Air Transport, Inc. for regular duty on its service between New York and Los Angeles made its first public appearance on this field today. More than 100 persons, including officials of the Curtiss company, visiting engineers and pilots and other guests were for flights in the large plane. Six of these large planes are under construction in the Curtiss plant.

NOVELIST DROWNS WHILE SWIMMING

PLATTSBURGH (N. Y.) July 21. (P)—Leroy Scott, the author, was drowned while swimming yesterday in Chateaugay Lake, twenty-five miles from here. State troopers disclosed. A canoeist said he saw him go down while trying to swim across the lake. The body has not been recovered. Leroy Scott was born in Fairmount, Ind., May 11, 1875. He was graduated from Indiana University in 1897 and seven years later he married Miriam, Ann of New York. At one time he was assistant editor of Woman's Home Companion.

MEXICO PLANS NEW LIQUOR BAN

MEXICO CITY, July 21. (P)—Government employees addicted to liquor will be discharged and applicants for positions will have to prove that they are not drinkers, if a campaign initiated by the National Antialcohol Committee created by President Portes Gil is successful. Several government departments already have agreed to co-operate in the committee's campaign, and pressure is being brought on others.

Envoy's Names Offer Problem

WASHINGTON, July 21. (P)—The Diplomatic Corps will be confronted by a name complication with the arrival here next week of Gen. Davila, the newly appointed minister of Rumania. Remarks have already been made on the fact that Minister Davila's name is almost identical with that of Ambassador Carlos Davila of Chile. The similarity is so pronounced that in referring to one or the other the designation of "Ambassador" or "Minister" is carefully added.

VELVET LEGS

To have beautiful legs you must wear Velvet Legs. Velvet Legs are the only leggings that do not hold you back. They are made of the finest velvet and are the most comfortable leggings you can wear. They are the only leggings that do not hold you back. They are made of the finest velvet and are the most comfortable leggings you can wear.

JUANS GAGGED IN PUBLIC

EDICT OF SPANISH PREMIER (Copyright, 1929, by the New York Times) MADRID, July 21. (Exclusive)—The traditional right of Spanish women to be gagged in public was upheld today by the Spanish Premier, Gen. Primo de Rivera, who has taken the unusual step of ordering that all women who are seen in public without a gag must be gagged. The Premier's edict is a direct result of the fact that many women in Madrid were seen without gags. The Premier's edict is a direct result of the fact that many women in Madrid were seen without gags.

SIXTY-FIVE DIE IN RIVER

LAKESIDE, Ind., July 21. (P)—Sixty-five persons were drowned today in the capsizing of a river boat on the banks of the Ohio River. The boat, which was carrying sixty-five persons, was capsized by a large log. The boat, which was carrying sixty-five persons, was capsized by a large log.

GRIM AVENGERS TREAD BORDER

Slayers of Officer Sought
Along Rio Grande

Inspector Slain in Ambush
of Rum-running Gang

Two Battles Fought With
Score of Marauders

EL PASO (Tex.) July 21. (AP)—Grim-eyed veterans of the border patrol rode through the arroyos and sage brush of their wonted "beats" today determined to find the trail of a band of men believed to have been rum-runners who killed Ivan E. Scottin, an inspector, when the officers were ambushed in this vicinity early Saturday morning.

Border patrol officials believe two of the attacking band fell before the inspectors' fire. Two pitched battles were fought between the officers and the ambushers.

CAR IN CROSS-FIRE
Scottin, 26 years of age, once a widely known Texas athlete, was shot twice when a patrol automobile was caught in a cross fire from three sides. Earlier in the night the patrol fought a battle with the gunmen at the same spot and one of the attackers is known to have been killed, the patrolmen reported.

Inspectors said the second battle was the result of a well-laid plot to avenge the first skirmish in which the supposed rum-runners were routed.

MANY IN GROUP
It is estimated that there were at least twenty men in the attacking party. More than 200 shots were exchanged before the charging inspectors forced the gunmen to flee across the Rio Grande.

Scottin fell in the first volley, shot through the head and hip. His companions were forced to fight their way back to recover his body and in so doing drove the last remnants of their opponents into Mexico.

Scottin was the son of an El Paso family, and in his high school days won a wide reputation as a track man. He had been a member of the patrol but a short time.

DENTIST MISSING OFF
TRAIN FOUND IN NORTH

SACRAMENTO, July 21. (AP)—Dr. Clarence O. Pollen, Tacoma, Wash., dentist, who disappeared Thursday night from the Cascade Limited while en route home after attending the recent national dental conference in San Francisco, was picked up today by local police. Officials stated that he apparently was suffering from a nervous breakdown. He was notified immediately. Dr. Pollen is the owner of a dental laboratory in Tacoma and the inventor of a dental casting machine.

"WITCH" SLAYERS DUE IN COURT

BAY CITY'S WEEK-END RED ONE

Four Dead, Eleven Badly
Hurt, Fifty Slightly, in
Traffic Accidents

SAN FRANCISCO, July 21. (Exclusive)—Four persons are dead, eleven injured and fifty others bruised or shaken as the result of automobile and street car crashes last night and today, making forty-seven traffic deaths for the year to date in this city.

Miss Evelyn Sutich, 17 years of age, student at the State Teachers' College, died from a fractured skull and other injuries and five others were hurt when an automobile in which she was riding careened off a street car near Lincoln Park and crashed a telephone pole. Raymond Weaver, 18, is expected to die from injuries suffered in the same accident, and the recovery of Olive Gardner, 17, also is questionable.

An unidentified man succumbed at Mission Emergency Hospital from injuries received on the Bay Shore Highway, near the county line, at the hands of a hit-run driver.

Harry Stamatis, laborer, 48, died from injuries said to have been inflicted by Thomas Magee, student, who was arrested for reckless driving and now faces a charge of manslaughter.

Charles Collins, 30, was killed when the car he was driving turned over after it and the automobile of Karl Gaus came into collision in the Park-Presidio district.

In a smash-up of two street cars as yet unexplained, four passengers were injured sufficiently to require hospital attention and fifty others were slightly cut, bruised or shaken.

SUN-BACKS BANNED
CHICAGO, July 21. (AP)—Rogers Park, a Chicago community, forbids the wearing of sun-back bathing suits.

TUNNEY'S REPLY TO PLEAD PLOT

Connivance at Blackmail
Will be Charged

Statement by Attorneys
Expected Today

Balm Suits Now on File
Aggregate \$1,000,000

NEW YORK, July 21. (Exclusive)—Gene Tunney's reply to the \$1,000,000 suits John Fogarty and his divorced wife, Katherine King Fogarty, have piled up against him will be that the Fogartys are conniving to blackmail him, according to revelations today from sources very close to the former heavyweight champion.

STATEMENTS EXPECTED

Such a characterization of the actions of the divorcee and her former husband, once a Fort Worth (Tex.) plumbing supply salesman, may come publicly tomorrow from Tunney's attorney, George W. Whitelaw of New York City. On the other hand such a statement may be reserved for the day Tunney answers the \$600,000 allegation of affectional action which Fogarty filed at Stamford, Ct., yesterday.

The former champion, who retired to marry Polly Lauder, the athletic business to Lauder and Carnegie steel millions, already has called the charges of Katherine King Fogarty, who sued for \$500,000 charging breach of promise, a pack of lies.

Fogarty, in amplifying his complaint that Tunney induced Mrs. Fogarty to obtain a divorce, is quoted as saying that he, as defendant in her Fort Worth divorce action, was never properly served with papers.

MAY USE AFFIDAVITS

John J. Martin of Stamford, attorney for Tunney in the \$600,000 allegation suit, could not be reached at his home tonight. Fogarty at present is said to be in Chicago.

Whether the former traveling man intends to call his ex-wife as a witness against Tunney could not be learned. However, it is thought he may use affidavits which the divorce signed for Tunney's representatives after payments of about \$27,500 were made to her. According to the printed text of these affidavits, she swore she had no claim on Tunney at any time.

Clerk Arrested
in Hotel Theft

SAN FRANCISCO, July 21. (Exclusive)—Harry Davis, asserted absconding night clerk of a Lake Tahoe resort hotel, was arrested here today and declared, police said, that he is wanted in Chicago for the \$40,000 robbery of the fashionable Park Lane Hotel.

Davis, who voluntarily, even boastfully, supplied officers with a long list of aliases, said he was working at the Tahoe resort when a guest entered who knew him. Fearing the police would be notified, he said, he scooped \$1500 in currency from the cash drawer, stole an automobile belonging to the hotel and drove to Sacramento, where he abandoned the auto in favor of a train.

GYPSIES SWINDLE

FARMER OF FORTUNE

OELWEIN (Iowa) July 21. (Exclusive)—Carl Glode, wealthy farmer near here, gave \$60 to a band of gypsies on the promise that they would double his money for him. Following directions, he opened a handkerchief three days after the gypsies had performed mysterious rites over it, and there he found \$120. Elated, he withdrew his life savings of \$10,000, and the mysterious formula of the gypsies was repeated, this time with the money in a belt. After three days Glode took a peek at his belt and found not \$20,000, but a wad of newspaper and some stage money. State and county officers are trying to trace the wandering band.

ANGLER KILLED IN FALL

SAN RAFAEL, July 21. (Exclusive)—Peter Parreira, carpenter, 42 years of age, living at Mill Valley, was killed today when he fell 100 feet from a rocky eminence into Big Lagoon where he had been fishing.

Re-Perfected PIERCE-ARROW \$1250

LESS than 20,000 miles was recorded on the odometer of the Re-Perfected Pierce-Arrow we offer at \$1250.

The sedan is of the 1926 series and shows but slight evidence of wear inside or out. The motor and chassis have been thoroughly Re-Perfected in our own shops and we place the same guarantee on the car as though it were new. The same amount of free service is also rendered.

The tires are in excellent condition, some of them being recently put on. The appearance is fine.

It is what we consider an exceptionally good car that would sell quickly even if priced somewhat higher than \$1250.

About 2,000,000 Gallons to be Distilled in 1930

Law Allows for Replenishing of Depleted Stocks

WASHINGTON, July 21. (AP)—Prohibition Commissioner Doran announced tonight that he soon will begin granting applications of distillers for permits to manufacture medicinal whiskey and that about 2,000,000 gallons will be distilled in 1930.

The manufacturing will be done under government supervision in five or six distilleries.

The commissioner explained that the law requires him to provide for replenishing the depleted stocks of whiskey for medicinal purposes. At the present time there are 3,549,071 gallons of whiskey on hand, according to reports compiled the last year. He estimated that with at least 1,500,000 gallons withdrawn each year this is enough to last five years. As the bureau requires that whiskey be aged four years, he said there will be only one year's supply on hand when the new whiskey can be sold.

The commissioner said that extensive examinations of the 200,000 barrels of whiskey now in bonded warehouses has convinced him that not more than 1000 barrels are of questionable quality. This statement was in reply to recent reports that large amounts of the bonded liquor has been replaced with inferior whiskeys.

Of the 2,000,000 gallons of whiskey to be manufactured next year, the commissioner said evaporation will account for the amount to approximately 1,600,000 at the end of four years. Of the new whiskey 70 per cent will be Bourbon and 30 per cent will be rye.

Doran's statement said: "The Bureau of Prohibition will proceed to act upon applications submitted by concentration warehousemen who now hold in bond the existing stocks of medicinal liquor and who are distillers or successors to distillers for permits to manufacture whiskey for medicinal use as provided by law."

"The fact which makes this action necessary and the suggested plan of operation are hereinafter set forth. Paragraph Three, Sec. 2 of the act supplemental to the National Prohibition Act, otherwise known as the Willis-Campbell Act, approved November 23, 1921, provides as follows:

"No spirituous liquor shall be imported into the United States, nor shall any permit be granted, authorizing the manufacture of any spirituous liquor, save alcohol, until the amount of such liquor now in distilleries or other bonded warehouses shall have been reduced to a quantity that in the opinion of the commissioner will, with liquor that may thereafter be manufactured and imported, be sufficient to supply the current need thereafter for all nonbeverage uses."

The Congress has given to the duty bonded physicians of the United States, subject to State acts governing the practice of medicine, the power and authority to prescribe whiskey for medicinal purposes when, in the professional judgment, such use is indicated. Upon the commissioner of prohibition is imposed the duty of acting upon applications to manufacture medicinal whiskey in order that the professional needs of the physicians may be met in the manner provided for by law.

AMOUNT ON HAND
"The amount of actual whiskey on hand July 1, 1928, is 3,549,071 gallons. If further manufacture is now permitted, it will be late fall or early January 1, 1930, before actual production commences. This is due to the necessary reconditioning of some of the distilling units. The contents of these barrels when originally produced and warehoused was 15,127,250 gallons. With the exception of a very small quantity made subsequent to the taking effect of the National Prohibition Act, prior to the Willis-Campbell Act, all of the whiskey was manufactured prior to the effective date of the Food Control Act of September, 1917.

"Normal evaporation occurs during the storage of whiskey in barrels, and the Congress in 1894 provided for fixed allowances for normal evaporation losses and these allowances are still recognized by existing law and are in accord with actual experience. Current withdrawal figures show a premium in the barrels of 97 1/2 per cent of the original contents. This figure is an average of many thousands of gallons and is a sound basis for determining the present contents of the barrels.

ESTIMATE MADE
"Taking into account the normal prospective tax payment for medicinal purposes and normal evaporation, there will be on hand January 1, 1930, 8,440,553 gallons. The whiskey that will be aged in a charred barrel for a period of not less than four years before being dispensed. This standard is the one set forth in the Bonded Act of 1897, which provides for the bottling in bond, under government supervision, of whiskey of not less than four years of age. The existing regulations of the Bureau of Prohibition recognize the standard of the United States Pharmacopoeia and provide for the dispensing of bottled in bond whiskey pursuant to physicians' prescriptions. It is necessary, therefore, that whiskey be aged not less than four years before bottling, and that a reasonable margin of bottled stock in the warehouses in the hands of the wholesale druggists and in the hands of the retail druggists be provided for. A one year's supply is deemed to be a reasonable and safe margin."

AMOUNT FIXED
"To meet the nonbeverage needs, it is proposed to authorize the manufacture of 2,000,000 gallons for the medicinal permit year. With normal

PARIS TIES AND ROBES—TWO SWIM SUITS

WHILE we usually look to London for authority on men's attire, many fashions, particularly in haberdashery and furnishings, originate in Paris. The French have a rare taste in such garments, and no little creative ability.

M. D'AHETZE introduces a novel thought in neckwear by working, on plain silk, tiny embroideries of such things as a car lamp, the license number on the wearer's car, automobile trademarks and radiator caps, college numerals, Greek letters and the like. Some are laid in geometrical design, others with unstudied carelessness. Other ideas show a plaid effect of silk on linen; and one which will prove very popular here, next fall, is made of a shot silver grey and red silk. This latter thought is likewise carried out in hose.

THE latest Parisian innovation in beach robes is made of washing lines, printed in breath-taking modernistic designs and lined with terry toweling which is turned over in a broad facing which reaches full way down the front. Kimono sleeves have the terry cuffs. The robe has no pockets nor buttons, but is held with a tie belt. It is decidedly masculine and practical. Terry cloth has come into great prominence this season as a lining for beach robes, because of its durability and the fact that it takes the place of a towel. It is very good looking in colors such as sand, ecru, primrose, green and blue.

A TIP, which we pass on to those selecting vacation wardrobe (without charge) is to be sure to take two swim suits if your plans include an extensive bathing program. Of course, if you don't mind climbing into a damp, clammy suit, why just disregard this suggestion entirely, but we personally don't go in much for gooseflesh.

OUR information on the matter extends over a period of many years, and excepting a one-piece glovesuit, we have yet to find a swim suit that will dry satisfactorily overnight, particularly hanging in a bathroom. And it is our sad experience to find that the better resorts and hotels object most strenuously to suits hanging from windows, on sunny verandas, or anywhere they might upset the aesthetic cosmos of the non-swimming but likewise paying guests.

STANDARDS SET
The United States Pharmacopoeia, which sets forth the standards of drugs handled in interstate commerce under the Federal Food and Drug Act, and the respective State pharmacy acts, provides that whiskey shall be aged in a charred barrel for a period of not less than four years before being dispensed. This standard is the one set forth in the Bonded Act of 1897, which provides for the bottling in bond, under government supervision, of whiskey of not less than four years of age. The existing regulations of the Bureau of Prohibition recognize the standard of the United States Pharmacopoeia and provide for the dispensing of bottled in bond whiskey pursuant to physicians' prescriptions. It is necessary, therefore, that whiskey be aged not less than four years before bottling, and that a reasonable margin of bottled stock in the warehouses in the hands of the wholesale druggists and in the hands of the retail druggists be provided for. A one year's supply is deemed to be a reasonable and safe margin."

quantity prescribed remaining quite constant.

HIGH HAT ON MEN'S ATTIRE

The "Hartmann Tourer" sketched here typifies the new idea in lightweight luggage, suitable for motor, plane, or train travel. It weighs 19 pounds empty, and 40 pounds packed to capacity. The covering is Kevlar made which needs vigorous cleaning; also has waterproof covers for automobile seat.

At Mullen & Bluet

Some new neckties which caught our fancy, were of fine silk, imported from France and England, having colorful black prints in Persian motifs. These silks are tailored right in this shop, and are finely finished and lined. The unusual color harmonies are distinctive.

At B. H. Dyas

This two-piece suit is for the "hot weather" wardrobe. The material is a crash in a mixture of green, brown and grey, having broken pin stripes of red and white. The jacket is on the sports style with semi-peak lapels and patch pockets.

At Roos Bros. Hollywood

Johnson & Murphy made this shoe over a specially constructed "roll last." It has a plain, flexible last, which is fairly wide. The leather sole has broad-based, metal golf studs. The upper is bearded Russia calf.

At Wetherby-Kayser

At the smart resorts we've visited during the past couple of weeks, and particularly at Catalina we had a number of well-dressed men wearing Scotch plaid pajamas and lounge suits, such as depicted here. The inset sweater has V neck and two pockets. Many unusual color combinations are shown in these plaids, and the hose match.

At Matthes in Hollywood

The latest development in one-piece underwear has a plain upper and figured lower, has one button at neck and three at crotch. It is very light and comfortable to wear. The material is rayon and Calceas.

At Silverwoods

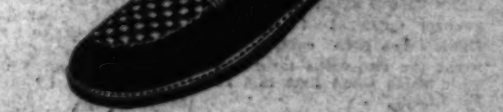

Cavanaugh has made a new lightweight felt hat, especially for this shop, and it's known as the "Beach Club." It's a splendid style for sports and travel, introducing several new shades, such as cranberry, mastic, pale and silver-grey.

At Desmond's

The coolest idea we've seen in shirts is an original hot weather design by this exclusively custom shop. It's made of flyweight broadcloth, elbow sleeves, and has a "two-piece" collar which may be worn with cravat, or open at the throat as illustrated. This collar is attached without a band, eliminating several thicknesses of cloth, and adding ventilation.

At Machin's Custom Shirtmaker

The "Mac" is the popular oxford for unshod persons. It is very light in weight, with the moccasin toe, and is "air-cooled" through its woven vamp. Made in black and white, or two-tone tan, it has soft toe and counter.

At Walk-Over

This "spindler" oxford is made without stiffening of any kind, of soft, flexible, lightweight calf. It is unlined, and the flexible leather sole, gives the utmost comfort in hot weather. The soft toe is medium wide. It is fine for sports, and smart for business wear.

At Hamilton's

GOVERNORS BACK IN SAFETY

Executives of Seven States Depart From Scene of Fatal Mountain Locomotive Accident

MOUNT WASHINGTON (N. H.) July 21. (AP)—The final trip of "Old Peppersack" first mountain-climbing locomotive, down the steep cog railway of Mount Washington ended last night in the death of one man, injuries to four other persons and harrowing experiences for several hundred others, including the Governors of seven States.

Descending the mountain after a 40-minute ride, they received injuries, but all are expected to recover. The engine plunged over the trestle to the rocks and exploded. Tonight only wreckage remained. Officials of the Boston and Maine Railroad, which operates the railway, said they believe the accident was caused by a broken front wheel. So little remains of the engine that it is doubted if it ever will be possible to determine accurately what happened.

Several of the Governors, most of whom were accompanied by members of their families, had narrow escapes. The Governors at the exercises were John Hamill of Iowa, Theodore Christian of Minnesota, Henry C. Claiborne of Missouri, George H. Dern of Utah, John E. Weeks of Vermont, William C. C. of West Virginia, Charles W. Tobey of New Hampshire and Lieu-

Auto Caravans for Teachers' Meeting Urged

Executives of Seven States Depart From Scene of Fatal Mountain Locomotive Accident

SACRAMENTO, July 21. (AP)—Plans for the organization of six caravans of California agricultural teachers to attend the annual conference of agricultural teachers in the California Vocational Association convention in Santa Barbara August 2 and 3, were announced here by J. A. McPherson, chief of the State Bureau of Agricultural Education. McPherson at the same time issued a call to all teachers of agriculture in the State, urging their attendance at the conference and approved them of the caravan plan he has formulated in order to facilitate transportation and reduce the cost to a minimum.

Caravan leaders from the various sections of the State named by McPherson are A. G. Rinn of Chico, Sacramento section; H. F. Chappell of San Jose, north coast section; Richard J. Werner of San Jose, south coast section; E. W. Barrett of Fresno, San Joaquin Valley section; L. T. Simmons of Grinnell, southern section, and McPherson himself will lead the central section party.

Last-Minute News From Petroleum Fields and Marts of Trade

REVIVAL OF OLD HYDRAULIC DUE

Angeleno Group Opening Up French Hill Estate

Early August Set for Start of Washing Operations

Stamp Mill in Commission at Empire Property

SACRAMENTO, July 21. (Exclusive)—The old French Hill hydraulic mine in Del Norte county is being rehabilitated by a group of Southern Californians headed by G. P. Terwilliger of Los Angeles.

The syndicate has completed five miles of ditches and 1500-foot pipeline and is preparing to start dredging work.

Water will be turned through the fifteen-inch pipe line early in August. The French Hill is credited with a gold yield of \$500,000 and is said to contain an immense quantity of gravel carrying commercial values.

The Empire-Star Company has placed eighty stamps in commission at the Empire mine and started trucking ore to the plant from the North Star property. It is understood that the North Star mill is to be dismantled and a tramway built from the mine to the French Hill.

This marks the passing of the great North Star mine as an independent producer, after approximately seventy years of steady operation.

The Yolo Holding Company is arranging to drill promising oil areas in the Corpus Valley area of Yolo county. A rotary drilling outfit is being assembled, and drilling is scheduled to start about August 1st. The district is said to yield natural gas and to show strong indications of containing petroleum.

Preliminary work has started on the old Gwin gold mine, located in the Lower Rich Gold district of Calaveras county. The property was taken under bond by California people headed by Jeffrey Schweitzer last April, and a comprehensive development campaign outlined.

Late reports from the management are to the effect that a 4000-foot vertical shaft is planned, and that miners have been placed for powerful equipment.

MEXICO OIL DATA

New Completions Since January 1 Reported as Fifty-six

MONTERREY (Mex.) July 21. (Exclusive)—In a statement issued by the Petroleum Bureau of the Mexican government, it is stated that during the first six months of 1929, a total of fifty-six oil wells of commercial production were drilled. The total drilled production of the fifty-six wells is 28,534 barrels daily.

The principal activity at this time is upon the latitudes of Tehuantepec in the State of Tabasco, where the Mexican Agulla (Eagle) Oil Company has extensive and exclusive leasehold production, very rich.

The production of that field goes to supply the refinery of the company at Minatitlan.

CINNABAR MINE SOLD

Nevada Quicksilver Buy Estate at Antelope Springs

CARRARA (Nev.) July 21. (Exclusive)—The Nevada Quicksilver Company, operating cinabar properties in the Antelope Springs field, has purchased the holdings of E. A. McGinnery, and is installing a compressor and air drills, preliminary to extensive developments.

Strong veins carrying good values in quicksilver are reported exposed. In the main property cinabar has been opened in a cross-lease, adding materially to value of the property. It is reported that McGinnery reports production has been raised to seventy-five flasks of mercury weekly.

WILL DRILL AHEAD

Mohawk to Sink Fracture Hole to Lower Level

BAKERSFIELD, July 21. (Exclusive)—Mohawk Oil Company, one of the principal operators at Fruitvale, has its Red Ribbon No. 5 well on Sec. 22, 28-02, down 270 feet and has announced that it will drill ahead. Mohawk has rig up for its No. 6 well on the same section.

Western Gulf is drilling in sandy shale in the Kern County Land Company No. 8-B well on Sec. 22, 28-02, at Fruitvale. The well is down 1229 feet with ten-inch casing set at 1000 feet. It is down 1701 feet.

Two giants will be used with 2000 miners' inches of water available. This property has a production record of \$2,000,000 and the ground is said to average 30 cents a yard.

RIG UP FOR START

General Plans New Project on Kern Field Front

BAKERSFIELD, July 21. (Exclusive)—General Petroleum Corporation has the rig up for its Wetmore No. 3 well on the Kern Front. It obtained a water shut-off in the Young No. 12 well on Sec. 14, 28-02, and is coring.

It is preparing to put its Young No. 23 in the same section on the pump. The latter is down 1865 feet with casing set at 1701 feet.

The Richfield Oil Company has found considerable oil sand in its No. 26 on the Kern Front. It is down 2113 feet with casing set at 2045 feet.

ORE STRIKE IN BIG BUG AREA RICH

Report of Discovery in Gold Medal Estate Held Most Important

PRESCOTT (Ariz.) July 21. (Exclusive)—What appears to be one of the biggest strikes of high-grade ore ever made in the Big Bug district is reported from the Gold Medal, one-half mile west of the famous old Henrietta.

At a depth of eighty feet the main shaft has entered a body of sulphide that assays 30 per cent copper, an ounce of silver and a trace of gold. Cross cutting has been started but no walls are in sight.

The Big Bug is one of Arizona's old districts. One occurs usually in fissure veins with lime and quartz fillers. The country rock is Yavapai schist, quartz diorite and quartzite.

Several circumstances have combined to bring about a revival in the Big Bug country. The county recently put the road in shape and made modern truck transportation available. Then it was announced that the Humboldt would resume operations about August.

Now comes the Gold Medal strike to create some real excitement.

Several properties have been leased by parties who expect to ship ore from the dumps or old workings when the smaller is ready. Among the most active leasers are Henry Niehausen and associates who are opening two claims of the old Little mine.

GOLD FIND IN TONOPAH AREA STIRS

High-Grade Discovery in Meadows District Viewed as Important

TONOPAH (Nev.) July 21. (Exclusive)—Discovery of a ten-inch shoot of rich gold ore in the Gold Meadows district by Ray Morris has stirred considerable excitement in Tonopah, and apparently confirmed the finding of "Capt. Jack's" legendary bonanza.

Morris found rich surface ore flecked with gold last November, and has been quietly developing the property with aid of three partners for several months. The new shoot is said to sample \$200 per ton, and is to improve as depth is gained.

Numerous claims have been located in the vicinity, and a rush seems imminent.

Capt. Jack, a Shoshone Indian, excited many desert camps about forty years ago by appearing occasionally with rich gold specimens, but could not be induced to reveal the location of the treasure. Scores of prospectors searched the wild country between Carrara and Wahmonie for many years in quest of the property, but it remained for Ray Morris to find the surface ore and indications of the claims having been worked by the old Indian.

The district is located in a wild and broken country about five miles west of White Rock Springs.

MINING RESUMED

Tonopah Belmont Again Operating Property at Hamilton

TONOPAH (Nev.) July 21. (Exclusive)—The Tonopah Belmont Company has resumed work on its claims at Hamilton, following promising ore discoveries by miners engaged in assessment work. On the Nevada Lead property good ore has been uncovered, and work is centered at this point.

The Belmont holdings cover numerous claims located in the Treasure Hill section of the old camp, which is credited with a production approximating \$30,000,000 in silver and gold.

NEW MINE VENTURE

Royal Copper Formed to Open Up Arizona Property

CLIFTON (Ariz.) July 21. (Exclusive)—The Royal Copper Company has been organized here by Roy Billingsley, Rufus Spoon and associates, to develop a group of five claims in the Mayflower district, formerly owned by B. P. Billingsley and Steve Corley.

Preliminary work has exposed considerable ore of commercial grade. The new company plans to have the mine on a producing basis within a short time, according to reports.

OIL DRILLING ACTIVE

Texas Reports 3771 New Wells Completed Since January 1

AUSTIN (Tex.) July 21. (Exclusive)—During the first six months of 1929, a total of 3771 producing oil wells were brought in in the different fields of Texas, according to a report of the oil and gas division of the Railroad Commission.

Showing 487 completions, January was the banner month of the period. Completions in other months were: February, 294; March, 439; April, 453; May, 439; June, 380. Two hundred and twenty-four gas wells were completed.

GEOPHYSICAL TEST OF MINE FIELD ON

BISBEE (Ariz.) July 22. (Exclusive)—Two professors from the Colorado School of Mines, John Oake and Jerodov Malkovsky, are here making a "geophysical" examination of the Bisbee Expansion Mining Company's claims with an electrical ore-finding device. Six weeks or more will be required for the examination.

RARE MINERALS, METALLURGY, CHEMISTRY

Utah Copper Ore

LOS ANGELES, July 1.—Question: I am sending you a sample of ore that I wish to know what it amounts to, if anything. Would like to know what it is and if your judgment such ore would be valuable enough to have assayed. It came from an old prospector who found it in the Blue Mountains of Utah with a request to me to see that you get it. With appreciation.

Answer: The sample is a most interesting one and second only to the handsomest specimen of cuprite from the Ray Consolidated mines of Arizona, which was given by the writer to the Smithsonian Institution of Washington, D. C. and now in the custody of the National Museum.

"Old Prospector." Surely not Capt. Keam's old runner between Keam's Canyon—Tusayan Trading Post—and Holbrook in the rocks apart! The name of the runner was Indian Charlie, a good friend of the writer, who is now blind, and lives at Tuba City, Ariz.

The sample carries rich copper ore (cuprite). Tetrahedrite (the valuable gray copper ore of the mine in the hills) is also present. Malachite, (green copper carbonate) is intimately mixed with the named minerals, and two microscopic crystals of tabular uranite (phosphate of uranium and lime) were detected in analysis. Such ore does not occur abundantly in the Blue Mountains of Utah, however.

Platinum Assent

KINOMAN (Ariz.) July 1.—Q: I send today a small sample of ore from Kinoman in the hills. I have reason to think there may be platinum in same, as there is platinum in some ore in that locality. I read your analysis of rocks and minerals with great interest and have been a subscriber to The Times for twelve years. H. A. D.

A: The sample was very carefully analyzed with platinum with negative results.

"Black Silicified"

KERRY (Or.) July 2.—Q: I have been reading your weekly report on mines and minerals and have found quite a deposit of rock or quartz in place, a sample of same is mailed to you with this, but under separate cover. I have been advised that it contains platinum and uranium. Please give your results of analysis through in the next column, and oblige.

A: The samples carry but little quartz—chiefly black magnesian silicate with traces of graphite and pyrite. The specimens are partly "silicified." Pyrite is sparingly present with traces of magnetite (pyrrhotite) and a slight reaction for nickel was obtained. Flakes platinum absent. Similar ore was recently "treated" by a concern in Oakland, and mixed with it was waste rock from Nevada. The "treated" material that \$12,000 per ton per short ton ore was present. The same old platinum gang is still at work, and has "worked" the public for two decades. The rock is mailed to you with this, but under separate cover. Another No. 1 is from amphibole. BUY RIO GRANDE OIL
With Diversified Good Oils

We consider Rio Grande... one of the finest investment opportunities on the market. It is now yielding approximately 11%. Production for the first quarter of 1929 more than equaled the entire year of 1928. Not only so, but the production for the first quarter this year has been 100% greater than for the first quarter of 1928.

Rio Grande, with a capable aggressive management in an extremely fortunate position. A very marked advance in the price of the stock is now being made. That is why we advise the purchase of this stock AT ONCE. Diversify your investment for security and added profit with good oil. Rio Grande and Sinclair in combination with Rio Grande, make added earnings... get a well-balanced investment.

PAY ONLY 20% DOWN

Pay the balance in 20 convenient monthly installments. Rio Grande and practically any other listed stock can be purchased on our convenient Partial Payment Purchase Plan. Our Investment Counsel Department has an unusually interesting report on Rio Grande and other good oil. You may gain valuable information by calling or reading the coupon. Do this today while the opportunity exists.

ORGANS OF EARLY DAYS RECALLED

Treadmills Were Used for Pumping Wind in Pioneer Instruments

NEW YORK, July 21. (AP)—The great organ to be installed in Carnegie Hall this year is a far cry from the treadle-operated affairs of some years ago.

But at that, descendants of the same firm which specialized in these old-fashioned instruments eight generations ago will construct this mammoth electrically operated organ.

Organ building has been a tradition in the Kilgen family of St. Louis since 1840, when Sebastian Kilgen, a Huguenot, escaped from France into Germany, where he built an organ for a monastery of friendly monks. In 1849 a descendant came to America and established the firm of George Kilgen and Son, which still exists.

This organization is constructing the electro-pneumatic organ under specifications drawn up by Pietro A. Ton, concert artist and honorary organist of the Vatican. The action is controlled by electrical impulses operated by pressing a key.

The response is said to be faster, even, than that of a piano.

The early instruments were operated by treadmills on which a half dozen people ran to develop wind within the bellows. Later, an improved bellows was operated by two men, water power was utilized and, eventually, electricity.

Modern organs do not have bellows, but employ reservoirs into which air is compressed.

The Carnegie organ is so huge that twelve freight cars will be required to transport its parts to New York. There are 7,000 pipes, ranging from those of pencil size.

MacDonald to Keep His Old Favorite Study

LONDON, July 21. (Exclusive)—Ramsay MacDonald, though he has moved in at No. 10 Downing street, has no intention of giving up his lovely Hampshire home. Indeed he intends to do a good deal of his work there.

He has a favorite study at Farnham Lodge, which he keeps in the most orderly way. It is small but very comfortable, and is decorated in blue and gold. The room looks out on to the garden, and when the Premier wishes to meditate some knotty problem he opens the French windows and sits half in a half out of doors.

One of the walls is lined completely with books. Some of these are notable first editions and others the odds and ends of literature Mr. MacDonald bought when he was a student.

It was in this small den that the new Cabinet was planned.

Italians and Chinese Fight Over Bootblack

CHICAGO, July 21. (Exclusive)—A Chinese left his tan shoes with a bootblack for polishing. The bootblack, James Schip, 13 years of age, was out of tan polish so he used black. When his customer returned he took a look at the shoes and paid him with a slap.

James went home and told his brother, Joe, 24, and the two returned to Chinatown. James pointed out the Chinese and Joe knocked him down. Immediately the doors all about them belched chattering Chinese and a handful of Italians came to their support. A scuffle in which more than a score of fighting Italians and Chinese participated.

PROHIBITION ARRESTS IN STATE JUMP

California Cases More Than Double in Last Year, Report Shows

SACRAMENTO, July 21. (AP)—Of the 47,340 persons whose fingerprints were received by the State Bureau of Criminal Identification as having been arrested during the fiscal year ending June 30, 1929, 10,500 were charged with violating the State's prohibition law, figures revealed here today. A total of 4,182 fingerprints of dry law violators were received during the preceding year, Clarence Merrill, chief of the bureau, stated.

Persons arrested in the State for murder totaled 407. Other crimes and the number of persons arrested are as follows: Vagrancy 6,018, misdemeanors 4,537, burglary 3,413, grand theft 2,292, violation of Federal laws 1,234, first-degree robbery 1,709, forgery 1,315, disturbing the peace 1,107, abandonment 520, contributing to the delinquency of minors 324, carrying concealed weapons 314, abduction 90, extortion 62, highway 48, bribery 13.

State property recovered through efforts of the State bureau totaled in value \$280,462. Prior convictions established through fingerprint identification numbered 11,823. The total of 67,531 fingerprints were received by the bureau from police and sheriff's offices during the year. Merrill said, and photographs numbered 44,591.

KISSING PRICE DOUBLES

CORR, July 21. (AP)—The price for kissing the Harvey Stone has doubled and is now a shilling. The Cork Tourist Association, fearing that tourists may not consider the chance for a lifetime of good luck worth that much, has asked the owner of Harvey Stone to raise the old rate of sixpence.

All of this stock having been sold this advertisement appears as a matter of record only.

162,500 Shares
Sharp & Dohme
Incorporated
\$3.50 Cumulative Convertible Preference Stock, Series A
(without par value)

Cumulative dividends payable quarterly February 1, May 1, August 1 and November 1. First quarterly dividend payable November 1, 1929. Entitled in case of dissolution or liquidation to \$75 per share and accrued dividends before any distribution may be made on the common stock. Callable at any time as a whole or in part, on 30 days' notice, at \$75 per share and accrued dividends.

Convertible, at the option of the holder, into common stock in the ratio of two shares of common stock to each share of \$3.50 Cumulative Convertible Preference Stock, Series A, with provisions designed to protect the conversion right against dilution. If called for redemption, Stock may be converted up to and including 5 days preceding the date set for redemption.

Exempt, under present laws, from Maryland Personal Property Tax, and, in opinion of counsel, under present laws and conditions, from Pennsylvania Personal Property Tax.

*Of this amount \$15,000 shares are reserved for conversion of \$3.50 Cumulative Convertible Preference Stock, Series A.

Dr. A. R. L. Dohme, for many years President of Sharp & Dohme, Incorporated, and its predecessor, further recommends his title to us as follows:

"BUSINESS—Sharp & Dohme, Incorporated, a new Maryland corporation, is to acquire the entire business and assets of the present Maryland corporation of the same name, one of the world's leading manufacturers and distributors of medicines and drugs. The business, which was established 69 years ago, has adhered to extremely high standards of quality manufacture with the result that its products and trade names are well and favorably known, especially to the medical profession, hospitals and wholesale and retail druggists.

Large manufacturing laboratories are located in Baltimore, in addition to which branch establishments are maintained in New York, Chicago, Philadelphia, Boston, Atlanta, St. Louis, New Orleans, Kansas City, Dallas and San Francisco.

The major portion of the business is the manufacture and sale of a complete line of about 4,000 standard pharmaceutical products, and of certain controlled medicinal specialties, such as Acetidine, Bocalin and Solobol. In addition, the business controls several discoveries, developed in its own research laboratories or those of universities or medical schools, such as Borocaine, Eka Salt, and Hexylresorcinol, which are experiencing wide demand. Hexylresorcinol, an outstanding chemical substance, is the base for several products including Copalcol and Solution S. T. 37, a powerful, non-poisonous, non-irritating, colorless, general antiseptic, with a broad field of effectiveness.

The increasing use of scientific medical products as preventive and remedial agents, originally with and approved by the leading research laboratories of the country, is reflected in steadily increasing earnings of the business.

EARNINGS—Net earnings, after depreciation and taxes, have been as follows:

Net Earnings	1927	1928	1929	1930
Per share Series A Preference Stock	\$1.104,134	\$879,725	\$788,736	\$868,625
*12 months ended June 30	\$6.79	\$5.43	\$4.62	\$4.33

The business has had an uninterrupted dividend record for the past 25 years, and, with the exception of 1928, has had substantial earnings during this entire period.

BALANCE SHEET—The balance sheet of the business as at June 30, 1929, as adjusted and certified by Messrs. Miller, Donaldson and Company, Certified Public Accountants, shows current assets of \$3,035,165 or about 13 times current liabilities of \$239,955, and net current assets of \$2,795,210. Trade-marks, patents, copyrights, formulae and good-will are carried on this balance sheet at \$1.

MANAGEMENT—Mr. A. Homer Smith, who has had many years experience in the industry and has been associated with the Sharp & Dohme business for 7 years, is to be President of the Company. Mr. Smith, during the World War, was in charge of Drug Administration, operating under the Medical Section of the Council of National Defense and the Medical Section of the War Industries Board. The Board of Directors is to include:

R. H. Cory, V.P., Lamont, Corlies & Co.
Charles D. Dickey, Brown Brothers & Co.
Dr. A. R. L. Dohme, Baltimore
Edwin A. Fish, Chas. D. Barney & Co.
B. H. Griswold, Jr., Alex. Brown & Sons
Ernest Stauffen, Jr., V.P., The New York Trust Co.

Thomas Hildt, Alex. Brown & Sons
C. N. Lauer, V.P., The United Gas Improv. Co.
Thomas Newhall, Drexel & Co.
A. Homer Smith, President
Ernest Stauffen, New York

Application is to be made to file the \$3.50 Cumulative Convertible Preference Stock, Series A, on the New York Stock Exchange.

The statements in the above advertisement are subject to the more detailed statements contained in the letter referred to, copies of which will be furnished upon application.

A limited number of shares of this issue having been offered to shareholders of the present company, we offer the balance not so taken to them, if, as and when issued and accepted by us and subject to the approval of legal matters by Messrs. Dohme, Miller, Donald

The Boomer Thronged by
Tombstoners
The East Side Hard
Hit by Weather
Night's Horrors

NEW YORK, July 21. (AP)—At
last a sunny July night sleep
was enjoyed in Orchard street.
A cool night breeze drifted
down the littered asphalt
streets of the city.

At the repair station where
the car is kept the floor boss
heard a radio going. He in-
vestigated. It was the radio
on Mrs. Hoover's car. He
told the men working on the
car to shut it off. They did.
A little later he heard more
radio. This time he shut it off.
A few minutes later the boss
heard it again. This time he
sat in the car and kept it off.
The mechanic on his floor
were all asleep. They were
receiving the current
game play by play over the
Presidential radio.

with other garbage to be washed
into the sewer, before dawn, by
the flushing tanks of the street-
cleaning department.

ACTORS AND LUSHERS
The nightly performance at the
Chicago Theater, where Grand
street crosses Chrysler, is not quite
over, but all the doors are shut
wide. From within, above the ho-
bbling bands of an oriental audience
—all men—are visible the painted
actors, chattering at each other in
fastidious on a bare stage while the
property men peep about at his
tasks in full view.

The triangular lawn at the gate-
way to Manhattan bridge is a rest-
less mass of sleeping devils. They
roll and toss, but whenever one
arises and begins to move around a
near-by policeman makes a swift
turn along the edge of the sword
with eyes alert. He is guarding the
sleepers from lusers—those igno-
rant of pickpockets, who prey on
slumbering bums in cases like this.
Back in Orchard street the music
of Joe Impollonia's guitar has
ceased. Joe, slumped forward on
his face on the sidewalk, sleeps.

ANCIENT HUTS FOUND

of Lake Constance have disclosed
several foundations and other traces
of huts of the ancient pile-dwellers
and also a number of skulls. The
exploring has been carried on by
the use of balloons.

HOPE FOR RAIN
World's southern, stirring at the
news of a week at the center of
a low clouds away, seen
around sky with heavy lids, hop-
ing that the slight lightning seen
above the horizon bridge
will rain. But it is far away,
and sharper are the stars
that come from the great
darkness of the Jewish Daily
news at 5 o'clock on, then off,
over the shaft of an
ancient beam atop a Brooklyn
skyscraper in the city of measured
rocks.

From the gates of Hester street
to the street of fish and cheese
and over the fruit, flung there

Associated Gas and Electric System
AN AMALGAMATED SYSTEM
85% Financed
By Parent Company

UNLIKE nearly all other public utility
groups, the Associated System is cen-
trally financed as well as managed. On
December 31, 1928, over 85% of the assets
were represented by securities of the Asso-
ciated Gas and Electric Company. This, how-
ever, has been reduced to 85% because of re-
cently acquired properties,
but already over \$92,000,000
of the underlying securities
of these new companies
have been exchanged for
Associated securities. As a
result of this forward step
in utility financing, the
Company has enjoyed a
greatly strengthened finan-
cial position. Stockholders
have benefited because of

the wider market created and because the
earnings were made more directly applicable
to their holdings. To the customers served,
this policy has brought extended service
and new low energy rates, making possible
more economical use of the many time and
labor-saving appliances available.

The beneficial effects of
this far-sighted and unique
financial policy will be re-
flected in the earnings of the
Associated System for many
years to come. This, coupled
with the promising future of
the electric light and power
industry, places Associated
Gas and Electric securities
in a particularly attractive
investment position.

Associated "Rights" Expire July 30
"Rights" to subscribe at \$42 per share to additional Class A Stock of
Associated Gas and Electric Company have been issued and are now
being exercised. This is considerably less than the current market price.

Subscribers may pay out of income as follows: Upon subscription, \$10
per share; Oct. 15, 1929, \$16; Jan. 15, 1930, \$16. Interest at the rate
of 6% per annum will be allowed on all payments from date of receipt
to the date when dividends begin to accrue on the Class A Stock.

Associated Gas and Electric Securities Co., Inc.
41 BROADWAY NEW YORK, N. Y.

HOOVER RADIO STARTS ROW

Garage Workers Tune In On
Ball Game Over Set in
First Lady's Car

WASHINGTON, July 21. (Ex-
clusive)—When Mrs. Hoover's private automobile
was equipped with radio none
envisioned that the apparatus
would cause labor trouble in
the national capital. But it
did.

At the repair station where
the car is kept the floor boss
heard a radio going. He in-
vestigated. It was the radio
on Mrs. Hoover's car. He
told the men working on the
car to shut it off. They did.
A little later he heard more
radio. This time he shut it off.
A few minutes later the boss
heard it again. This time he
sat in the car and kept it off.
The mechanic on his floor
were all asleep. They were
receiving the current
game play by play over the
Presidential radio.

GAINS REPORTED IN COTTON CROP

First Half of July Nets
Improvement

Weather Conditions Not
Unfavorable

Weevil Damage Noted in
Some States

MEMPHIS (Tenn.) July 21. (Ex-
clusive)—The Commercial Appeal
tomorrow will say reports of the
average date of the 18th inst. by
correspondents of the Commercial
Appeal indicate that the cotton
crop improved moderately during
the first half of July in nearly all
areas of the belt, according to these
reports. States touched by the
Mississippi River maintained their
relatively high condition, but Ala-
bama showed a slight decline. The
other States improved moderately
from a fair condition at the end of
June.

The first half of July was show-
ery east of the Mississippi and
mostly dry west of it. Northwest
and Central Texas are beginning to
need rain, although they may be
able to get along a week or two
longer without irreparable damage
to the crop.

Showers east of the Mississippi
River were the most frequent in
areas of alarming weevil infesta-
tion and from that standpoint were
unfavorable. Very few correspond-
ents considered the weather other-
wise unfavorable. There was some
complaint of local drought in the
small cotton. Weevils appeared in
small numbers in Texas and are
being controlled in Louisiana.

DAMAGE REPORTS
Heavy damage is reported in
South Mississippi, Alabama, Georgia
and South Carolina, but while fears
are expressed that the damage may
become much more serious damage
elsewhere is described as negligible
to moderate. The deltas in Missis-
sippi, Northwestern Mississippi
and the State of Arkansas appear
to have very few weevils and only
one Tennessee correspondent reports
weevils.

Weevils appear to be spreading in
Central and Eastern Oklahoma. The
Carroll county report some grassy fields
but fields as a rule are clean the
belt over. Fruiting is satisfactory in
most sections. The plant averages
rather small in size but the condi-
tion in this regard is spotted. In-
dications for six of the larger States
follow:

STATE SUMMARIES
Alabama—Weather more favor-
able for plant growth than for
checking weevil activity. Local
showers frequent but some localities
complaining of drought. Weevils
present in spots over most of the

DREDGERS FIND BOX OF COINS

Treasure Chest Taken From
Mind of Elbe River Thought
War Loot

WITTENBERG (Germany) July 21. (AP)—A treasure chest
full of gold and silver coins of the
eighteenth century was pulled out
of the mud by a dredge on the Elbe River.
Most of the money consisted
of silver coins dated from
1740 to 1811, but there also
were a number of French Louis
d'or. Though the find was
made in broad daylight it be-
came known only when a po-
lice man saw a child near the
dredge playing with money.
The greater part of the money
was traced to two bargemen.
It is assumed that the
treasure was lost from the
Napoleonic wars.

State. Considerable damage in the
south, mostly in the southeast.
General condition much better than
this time last year but weevils
feared.

Arkansas—Some complaints of lo-
cal drought, mostly northeast, but
weevils regarded as much more
favorable than elsewhere. Fields
clean and plant growing and fruit-
ing nicely.

Mississippi—Showers too frequent in
many localities, especially in south
and central counties. Plant made
good progress but widespread
spotted weevil infestation causing
alarm. Most southern counties seem
reasonably certain of a fair bottom
crop.

Oklahoma—Weather mostly fa-
vorably dry but many sections in
the west probably beginning to
need rain. Weevils spreading in
eastern and central portions. Gen-
eral prospect good to fair in the
east and fair to very good in the
west.

Texas—The northwest, a section
free from weevils, would be greatly
benefited by rainfall, now be-
ginning to be urgently needed. Some
localities already suffering. Large
central areas very dry, except in
spots where showers are too fre-
quent, stimulating weevils. Crop on
the whole making fair progress.

OUTPUT OF GOLD ACE REPORTED

Mill on Property Held
Handling About Seventy
Tons of Ore Daily

Gold Ace Mining Company is
milling from seventy to seventy-five
tons of ore daily at its gold-pro-
ducing mine south of Beatty, Nev.,
according to Manager G. Ray Boggs
of Los Angeles, who reports the mill
heads average about \$14 per ton in
gold content, the recovery being
approximately 80 per cent of the
assay value of the ore treated. The
gold has a fineness of \$18.30 per
ounce.

The Mat-O-Gold set employed in
milling practice is giving excellent
satisfaction, Boggs says, its product
being treated by barrel amalgama-
tion in gold recovery. All ore milled
is produced in the performance of
development work only, leaving large
tonnages of commercial ore un-
touched pending regular stoping
operations. Gold-bulion shipments
are being made at regular inter-
vals.

The new double-compartment
shaft, completed to a depth of eighty
feet quite recently, is now being
deepened at the rate of four feet
daily. At a depth of ninety feet
new ore was cut in the shaft having
an average value of \$18 per ton in
free-milling gold. The present ob-
jective in shaft-sinking is to reach
the all rock under the limestone
formation where it is anticipated
a large body of high-grade ore will
be encountered. Forty-five men are
on company payroll, and most satis-
factory progress is reported in mine
development and in milling prac-
tice.

New Oil Strike in Texas Viewed as Significant

SHERWOOD (Tex.) July 21. (Ex-
clusive)—Opening of a new oil
pool in Irion county, about ten
miles from Sherwood, is regarded
as a significant development of the
West Texas fields, according to oil
operators. The discovery well is
that of W. W. Brown and Perry
Fox.

At a depth of 1335 feet it pumped
100 barrels of oil the first twelve
hours. The gravity of the oil is
28.8 deg which has a posted price
of \$1.55 per barrel. The hole is
only two feet in the sand and it is
expected that when it is deepened
the production will increase.

The University of Texas owns
22,730 acres in the same area of
Irion county in which the new well
is situated, and an active drilling
program upon this land will be
started soon, it was stated.

MINE CODE ISSUED

Pamphlet Given Revision by
Arizona Assembly
PHOENIX (Ariz.) July 22. (Ex-
clusive)—State Mine Inspector Tom
O. Foeller, has issued a pamphlet
containing the revised mining laws
of Arizona, including changes made
by the State Legislature last win-
ter.

Most of the changes became ef-
fective July 1, this being the first
time in several years that Arizona's
mineral laws have been available in
compact form.

FARMS GAINING IN PROSPERITY

Last Year's Returns Best
Since Depression

Net Average Income Better
Than in 1927

Department of Agriculture
Issues Report

WASHINGTON, July 21. (AP)—The
best farm returns for any year
since the post-war agricultural de-
pression are reported in the annual
survey for 1928 issued tonight by
the Department of Agriculture.
The reports from 11,851 owner-
operated farms during 1928 show an
average net return of \$1334, while
during 1927 13,869 farms reported
an average return of \$1286.

The survey shows 36 per cent of
the farms reporting returns be-
tween \$1000 and \$2000, 48 per cent
reported returns of \$2000 and
\$3000 and 9 per cent reporting less
than \$1000.

By geographical divisions, the
survey said, the largest increases
in net returns were in the south
central States, 14 per cent, west
north central, 10 per cent, and
east north central, 8 per cent. Re-
turns for the western section showed
little change over 1927.

Gross receipts were larger on the
average during 1928 than in 1927,
but expenses were also higher, the
survey said.

The average size of farms report-
ing was 284 acres, with an average
investment of \$15,477, both size and
capital investment being larger
than the census average. No ten-
ant farms were included in the
survey.

OPERATIONS RESUMED BY RAY MINING

Property of Extension
Company Forging Ahead
After Refinancing

Ray Extension Mining Company,
E. B. Hyde of Los Angeles managing
engineer, with property holdings ad-
joining the Ray Consolidated mine
at Ray, Ariz., has resumed work
after complete financing, and is now
deepening the 280-foot three-com-
partment shaft to the 300-foot level,
at which horizon ore pockets will
be put in and a cross-cut run to
the large ore-bearing ledge cut and
passed in shaft-sinking above the
300-foot level. Sinking is to be con-
tinued to the 400 and 500-foot
levels, at which stations will be es-
tablished and laterals run in block-
ing out the ore bodies of the mine.
The vein, it is stated, is of good
proportions, the ore being of excel-
lent shipping grade and carrying
values in silver, lead and copper.

The property of the company is
completely and modernly equipped,
including an up-to-date ventilating
system. Although there is a con-
siderable tonnage of commercial ore
in sight in the mine workings, it is
stated, the production and market-
ing of the product will be held in
abeyance until the completion of de-
velopment work planned and well
under way, covering a period of ap-
proximately six months, when regu-
lar and heavy smelter consign-
ments are planned. The Ray Ex-
tension is but two miles from rail-
road shipping facilities.

MARICOPA FLATS WELL ATTRACTS

Output of North American's
Project Holds Up

Daily Yield Reported Steady
at 4000 Barrels

Doyle's Weir No. 1 Sands Up
After Completion

MARICOPA, July 21. (Exclusive)
Holding up to a steady production
of 4000 barrels a day, the Sunset
Extension No. 1 well of the North
American Consolidated Oil Com-
pany is holding the attention of the
industry just now on Maricopa
Flats.

Located on Sec. 8, 11-23, Sunset
No. 1 came in from a depth of 3043
feet, and is flowing with open hole.
The oil is 22.1 deg. gravity and
shows a cut of only one-tenth of 2
per cent.

The Doyle Production Company's
Weir No. 1 well on the same sec-
tion, which came in with an esti-
mated flow of 1000 barrels the
same evening the Sunset well came
in, has sided up and is being
balled preparatory to another test.
The North American Consolidated
will have to recompute its Lincoln
No. 1 well on Sec. 18, 11-23. This
hole tested wet last week. It is
down 2250 feet with the six and
one-half-inch casing set at 2015
feet.

The Birch Oil Company has its
No. 1 well on Sec. 7, 11-23, of the
Maricopa Flats standing cemented
at 2710 feet, with nine-inch casing
set at 2384 feet.

The Signal Oil and Gas Com-
pany has plugged its Sheehan No.
4 well in the same district and
will drill it out and test by stages.
This well has been the center of
interest for several weeks.

RAILWAY TO ICE CAVES

VIENNA, July 21. (Exclusive)
To go by trails 5000 feet up the
Dachstein and by scenic railway
through the gigantic ice caves is
the joy the Austrian federal for-
est commissioners propose to offer
tourists of the happy future.

Repeating Axelson Success in the Axelson Engine

Each succeeding year of Axelson's
years of manufacturing experience
has seen buyer confidence increase.
It is not surprising, then, that Avia-
tion's acceptance of the Axelson Air-
plane Engine should be so overwhelm-
ing. For the Axelson Engine em-
bodies the ripened experience, the en-
gineering expertise and the man-
ufacturing skill that have made Axel-
son a synonym of Quality for many
years.

Approved by the U.S.
Department of
Commerce
Certificate No. 14

7-cylinder, radial, air-
cooled 150 h.p. engine.
Highest horsepower
for its class. Now in
production.

Stock Purchase Privilege
Extended to August 5th

In order to give full opportunity to stockholders of Allied Motor
Industries, Inc., Great Lakes Aircraft Corporation, and Van Sickle
Corporation, many of whom are now away on vacations, Allied Motor
Industries, Inc. has agreed to extend the time for exercising the pur-
chase privilege for units of Class A and Class B stock of American
Cirrus Engines, Inc. from July 22 to August 5, 1929.

Full information regarding this stock purchase privilege may be
secured from Allied Motor Industries, Inc., at the address given below.

Allied Motor Industries, Inc.,
120 So. La Salle Street,
Chicago, Ill.

Exempt from all Federal Income Taxes

CITY OF CHICAGO

Board of Education

6% Tax Anticipation Warrant Notes

Dated July 1, 1929. Principal and interest at maturity payable in New York City or in
the City Treasurer's Office, Chicago. Bearer Notes in denominations of \$1,000 and
\$5,000. Legality submitted to counsel, whose opinion will be furnished upon request.

These Notes, in the opinion of counsel, are being issued by the City of Chicago on behalf of
the Board of Education for school purposes, in anticipation of, and payable exclu-
sively from, ad valorem taxes levied on all taxable property in the City for the years
1928-1929. Such taxes are specifically assigned and pledged for both principal and
interest and the City is limited by law to the issuance of an amount not exceeding
75% of the anticipated taxes, based on the last tax levy. The City of Chicago has an
assessed valuation, officially reported, of \$4,250,437,799.

FILM PAIR CHOOSE OWN ROLES
And "Honeymoon" Needs No Direction

John Gilbert and Ina Claire

ACTRESS TO
BATTLE TAX
BY ENGLANDBesides, Letter Asking
Betty Blythe to Pay Was
Dated on July 4

It would not have been so bad, says Betty Blythe, film actress, if His Britannic Majesty's agents had not dated the letter by which they tried to collect \$3000 from her on July 4, 1928. Blythe, who is now in England, was a claimant as income tax when she was in the United States. She heard about the letter on July 4 in the U.S.A. history lesson that she heard that "taxation without representation is tyranny." Blythe, being an American citizen, is without representation whatever by the British crown. Blythe, she says, her journey in England as a musical artist, was limited to five months and twenty-nine days for the obvious reason that a person working in England six months becomes liable for the British income tax.

Between her nearly six months' sojourn in the British Isles, Miss Blythe toured the continent, making appearances in Paris, Berlin, Vienna and Cairo. Nowhere did she remain more than five months and twenty-nine days, she says, so as to come under the provisions of tax laws, guaranteed by treaties with the United States.

And so Attorney Hahn has addressed a letter to the British government advising of the circumstances.

Heretofore has issued a complaint charging Maury Love, operator of the Hollywood Photoplays, 1148 Glendale boulevard, with petty theft and false advertising. Mrs. Charlotte Scherer of Reseda complained that she paid Love nearly \$100 on his representation that he would train her 10-year-old daughter for picture work and find her a position at not less than \$150 weekly.

Mrs. Blanche Wilson, 1065 17th avenue, has complained against H. Barton Meale of the First Consolidated Pictures, 681 North Seward street. "He said he had made a star of Tom Mix and could do the same for me," she declared in a written statement. She asserts that she paid Meale \$150 for a "course of instruction." Meale allegedly told her that if she would loan him a stock of roofing material in the latter place.

Three Stores Suffer Damage From Flames

GAS EXPLOSION
KILLS TWO MEN

Double Blast Occurs From Broken Pipe Line

Car of Trouble-Shooters Sets Off Fumes

Forest Patrol Extinguishes Fires That Result

Two men were killed yesterday in a gas explosion in Violin Canyon, 35 miles north of Newhall, as the result of a leaking pipe line owned by the Midway Gas Company.

The explosion occurred at 10:15 a.m., shortly after Pete Wall and his companion, identified later as Gabriel Real of San Fernando, set out to locate the leak in the pipe line, and is believed to have resulted from sparks emanating from the exhaust pipe of their automobile.

Real was killed instantly and his body burned beyond recognition. Wall lived to crawl approximately 100 yards from his blazing car, but expired without regaining consciousness.

The explosion which killed the two "trouble hunters" attached to the Midway Gas Patrol, No. 4, was the second to occur yesterday, the first one taking place less than two miles south of Newhall.

Both explosions were laid to escaping gas from pipe lines through the canyon, and believed to have resulted from a slight earth movement which occurred around 10 p.m. Saturday night, according to a late report from there.

NEW COUNTY
INSTITUTION
STANDS HIGHAnnual Report Declares
Juvenile Hall Regarded
as Model Establishment

Los Angeles county's new \$50,000 Juvenile Hall has come to be recognized as one of the model institutions of its kind in the country, according to the annual report of the Los Angeles Probation Committee submitted to the County Board of Supervisors by Mrs. Elizabeth McManis, chairman of the committee.

The hall erected seventeen years ago, to accommodate 150 children, has been replaced by new buildings with room for 368 children. There is an average of 172 children confined there each day. During the past year 4440 children have been confined, including 682 girls; more than 18 years of age. The average stay for boys is 12.33 days, and for girls, 16.72 days. There were 2488 boys and 1953 girls in the hall last year.

Of the girls released from the hall during the last fiscal year, 905 went home or were married, 548 were adopted or assumed permanent employment, 130 entered convicts, 26 went to the El Retiro school, 26 to the Los Angeles Bureau Girls' Club, 23 to Ventura School for Girls, and 237 to other institutions.

SHULER TO
TELL STORY
TOMORROWPreacher Scheduled for
Grand Jury Appearance
on Conspiracy Charge

Rev. R. P. (Bob) Shuler is expected to appear before the Los Angeles county grand jury tomorrow morning to answer charges of conspiracy to defraud. Shuler was called before the grand jury last week but asked for more time to prepare his evidence.

FILM "SCHOOLS" FACE DRIVE

Prosecutor Nix Will Ask Screen Officials to Aid
Campaign Against Fraudulent Practices

Co-operation of motion-picture officials will be requested in a drive against asserted fraudulent film "training schools" which are said to have taken thousands of dollars from persons anxious to enter motion pictures, according to City Prosecutor Nix. Since the drive was launched by the Better Business Bureau last week, Nix and Deputy Prosecutor Hornaday have interviewed more than 100 persons who declare they have been defrauded by operators of such "schools," Nix stated.

Heretofore has issued a complaint charging Maury Love, operator of the Hollywood Photoplays, 1148 Glendale boulevard, with petty theft and false advertising. Mrs. Charlotte Scherer of Reseda complained that she paid Love nearly \$100 on his representation that he would train her 10-year-old daughter for picture work and find her a position at not less than \$150 weekly.

Mrs. Blanche Wilson, 1065 17th avenue, has complained against H. Barton Meale of the First Consolidated Pictures, 681 North Seward street. "He said he had made a star of Tom Mix and could do the same for me," she declared in a written statement. She asserts that she paid Meale \$150 for a "course of instruction." Meale allegedly told her that if she would loan him a stock of roofing material in the latter place.

Aviation Company First to Go With Local Men for
Two Weeks' Stay at San Luis Obispo

Scenes reminiscent of war days were enacted in various sections of Los Angeles early yesterday when local units of the National Guard entrained for their annual summer encampment at San Luis Obispo during the next two weeks. More than 1000 men comprised the units.

For the first time in the history of the local National Guard organization a complete aviation unit was added to the personnel. Under command of Col. Harcourt Hervey the One Hundred and Sixtieth Infantry left by four special trains over the Southern Pacific for San Luis Obispo.

PRINCIPALS
ASSIGNED TO
NEW POSTSSome Elementary School
Heads Have Been Shifted;
Additional Ones Chosen

Transfers of elementary school principals and announcements of those who have been elected to that office have been made for the coming school season by the Board of Education.

Those named for transfer are: Willis Mitchell Ryan from Wilshire Crest to Alessandro street; Abner A. Badger, Carpenter street to Bandini street; Ross Hardman from Olund street to Carpenter street; Ora Letz Hendrick from Solano avenue to Castelar street; Henrietta M. R. Schulte from Owensmouth to Elysian Heights; Burton O. Greening from Pershale to Fifty-ninth street; Marcella L. Richards from Tuljunga to Fourth street; Paul F. Shaffer from Woodlawn to Gardena; Myrtle L. Chandler from Fifty-ninth street to Gardner street; Minnie S. K. Oldham from Hilltoppe avenue to Garvanna; Jessica A. Pullis from Rocha street to Kern avenue; Daley P. Morrison from Kern avenue to Hilltoppe avenue; Lester L. Kaems from Bandini street to Leland street; Clifford S. Knight from Serrana avenue to Loma Vista.

Wide Variety
Marks Federal
Public Auction

Everything from golf balls to chewing tobacco will be sold at public auction tomorrow by Ben Aarons, veteran auctioneer, for the Federal government. The sale will take place at 347 West High street at 10 o'clock tomorrow. Articles to be sold include corned beef, shell, almonds, books, clothing and corkboard. The articles mostly were seized by the customs department.

'EAGLE,' NO LONGER LONE,
TAKES EASTWARD FLIGHT

Col. and Mrs. Charles A. Lindbergh took off from Grand Central Air Terminal at noon yesterday en route to New York in their open Falcon biplane.

The couple had been guests at the J. L. Madson home since their arrival here from the Los Angeles airport. Their rest here followed a strenuous month of flying activities with Col. Lindbergh officially opening the service of Transcontinental Air Transport, of which he is chief technical adviser.

ONE MAN KILLED
WHEN AUTO TIPSTwenty-eight Others Hurt
in Week-end AccidentsMotorist Held as Victim of
Crash Flights to LiveEleven Injured in Collision
of Two Machines

One man is dead, twenty-eight persons are injured, four perhaps fatally, and an asserted hit-and-run driver is held in jail while the victim of the accident awaits the result of week-end traffic accidents, according to police reports last night.

Alfonso Morales, 40 years of age, of 6 Walnut street, Los Nietos, was killed instantly when the automobile in which he was riding as a passenger with Camillo Morales, 18, of Whittier, turned over on the Norwalk Mills-Fuente Road near Whittier, yesterday. Eyewitnesses asserted the car was traveling at a high rate of speed.

Walter C. Landgraf, a blacksmith of 222 Michigan avenue, surrendered to police at the Seventy-seventh-street station late yesterday after he had been sought on a charge of failure to stop and render aid. According to the police report, Landgraf said he fell asleep at the wheel of his automobile, and ran through a safety zone, striking Julia Hayes, 25, of 318 South Hancock street, who is in the General Hospital suffering from internal injuries and a shattered leg with little chance for recovery.

ANOTHER CAR CAPSIZES

In another accident in which his car also capsized, John Howard, 40, of 50 South Vernon avenue, Pasadena, suffered a fractured left hip and fractured right wrist. The accident occurred on Colorado Boulevard near Hill Drive. Eagle Rock, Howard was given emergency treatment at Georgia-street Receiving Hospital and later removed to General Hospital.

His person was injured, three of whom may die, in an accident two miles south of Compton last night when an automobile driven by Thomas McLaughlin, 34, of Compton, collided with a truck carrying a party of Japanese returning from a beach picnic. Five of the Japanese were injured. McLaughlin was taken to a Compton hospital suffering from a probable skull fracture and a crushed face.

W. H. Hattori, J. Hattori, Mrs. K. Hattori, O. Hattori and Y. Hattori of 229 North San Pedro street, all of whom sustained serious injuries, were taken to the Los Angeles Japanese Hospital. Hospital. Captain Marion of Compton is investigating the accident.

COLLISION HURTS TWO

Joan Adair, 30, of 322 North Van Ness avenue, sustained a fracture of the left hip and numerous cuts and bruises, when the car in which he was riding with Raymond Becker, 25, of 724 South Broadway street, collided with another machine at Sixth and New Hampshire streets. With Becker, who received minor injuries, was a party of Japanese. The driver of the other car, Harry W. Hahn of 629 South San Pedro street, was unhurt.

Eleven other persons were injured, one seriously, in a collision of two automobiles at Griffith Park Boulevard and St. George street. The one critically injured is Dr. Fred Tschida, 45, of 2240 East Third street. He suffered a fractured skull when the car in which he was riding with Edward Fujimoro, 28, of 285 East First street, of 1-3 Raleigh street, who suffered a fractured collar-bone.

OTHERS IN CAR

With Kitchen were Mrs. May Schaffer, 35, of 3508 Camador street, her two daughters, Georgia, 12, and Violet, 14, George McCutcheon, 18, of 3234 San Fernando Road, and Helen Jeffries, 15, and Calvin Tilton, both of 1788 North Mariposa avenue. All were badly bruised and, together with Fujimoro and his passengers, were treated at Georgia-street Receiving Hospital.

Kitchen told police the accident occurred while he was rushing Georgia Schaffer to her home for medical treatment. He said the car had been sustained on a bathing beach earlier in the day.

Mrs. M. A. Jackson of Creswood avenue, San Pedro, received a concussion.

SEA YIELDS WOMAN'S BODY

Discovery Substantiates Story of Child Who Said She
Saw Two Leap Off Pier

By a "Times" Staff Correspondent

SANTA MONICA, July 21.—The body of Miss Ethel Miller, 33 years of age, who disappeared from her home here Thursday night, was discovered floating in the water at the foot of Strand street, Ocean Park, today. The finding of the body followed the report of a small girl Thursday that she had seen two women leap from the pier.

The Lancer

by
Harry Carr

JUSTICE for Trader Horn!

Justice for Trader Horn! Justice for the man who, in Africa, says there really was a blond cannibal queen. My skepticism is unfounded. He knew his Majesty. She was an albino with pink eyes and fluffy blond wool. And it cost him six bottles of Trader gin to secure a royal audience.

This is another great spectacle that has been denied me. My idea of rapture would be a royal audience with a pink-eyed cannibal queen belated with six bottles of gin.

LINDBERGH'S TROUBLES

Col. Lindbergh finds the motion-picture noise men as objectionable as the demon reporters. They not only try to steal his picture, but the words out of his mouth with microphone hidden under their shirts.

It's a hard life, shipmates; but the colonel would find life less hard if he didn't take it so seriously. After all what do interviews matter—one way or the other? Or sound pictures or reporters or cigarette ads or youthful prodigies with giant intellects, or blond cannibal queens or movie stars or Congressmen? Nothing matters except hot weather and spilling soup on your necktie.

MEXICAN LABOR

At the next session of Congress there will be a knock-down-and-drag-out fight over the proposal to restrict Mexican immigration into the United States.

Such a restriction would be absolutely ruinous to California. Without Mexican labor, it would be impossible to harvest the crops of Imperial Valley. Other farm districts are almost equally dependent upon the peon. There is a great scream from labor unions that they are taking work from the American workman; but the American workman isn't much in evidence when the thermometer is 120 and the melons are ripe on the vines.

To a great degree the Mexican immigration is self-regulating. Those fruit growers come when the picking is ready to begin. They go back when the job is finished. Or go to another area where the fruit is ready to pick.

This class of labor has the twin virtues of being flexible and reliable. They keep moving; but they always turn up when and where wanted.

I PASS

The gentleman in question may be a missionary and all that, but I have to draw the line on the story of a little bird in Zamboni that makes his own bedding liquor by dropping fruit into the ground and letting it ferment. I may be weakening in the matter of the blond cannibal queen, but I can't believe everything.

DEVASTATING

Eusebius Mandyczewski, the great musical critic, is dead. The dispatches say that his musical verdicts were authoritative. They would have to be. Musicians are pretty fussy about press notices; but it would be a bold fiddler who could answer back a man bearing the name Eusebius Mandyczewski. You know, it would just overwhelm you. If a man named Eusebius Mandyczewski says you are pretty punk on the trombone, it has the finality of doom. There is nothing left to do except hunt up an undertaker named J. Smith and kill yourself.

Mexican Held in Long Beach
Confesses Attack Plot

Knife-Wielder Captured as
He Returns to Auto

By a Times Staff Correspondent
LONG BEACH, July 21.—Confessing a diabolical plan to attack the first woman that he encountered, Antonio Martinez, 21-year-old Mexican, is held in the City Jail here today following an attempted assault last night on Miss Lee Reiter, 14, who was grabbed by the shoulder as she made her way to her home at 4122 Pacific avenue, by a man brandishing a huge butcher knife.

Martinez told police officers, who arrested him as he returned to an abandoned automobile near the scene of the attempted attack on Miss Reiter, that he lives at 3229 Oregon avenue.

SCHEME RELATED
He calmly related his scheme to the officers and said that after deciding on the crime he purchased a seven-inch butcher knife, and drove his car out in the high-class residential section of the city to await any woman.

Miss Reiter said that she had just left a bus and was walking along a deserted street on her way home when a man suddenly jumped out of a shadow and grabbed her by the shoulder. He threatened her with a long knife and declared that he would kill her if she screamed.

DOG TO RESCUE!

The crime of the girl attracted the attention of residents, and a large police dog rushed to the rescue. The man, with the dog in close pursuit, throwing away the knife the man escaped through a vacant lot, abandoning a parked auto. Police found the car and from the registration certificate learned the name and address of the owner. An officer was called to watch the machine and, about 2:30 a.m., Martinez slipped through the alley and attempted to make a getaway in the car.

After he was questioned he made a signed statement, police say, admitting the attempted attack. He is being held for investigation until formal complaint can be laid to-morrow.

Audience Flees as Smoke Fills Cinema Theater

Nearly 100 patrons of the theater at 808 South Hill street fled to the street yesterday afternoon when a fire in the projection room filled the theater with smoke. A broken belt on the projection machine was reported by police to have caused the machine to catch fire, damaging the film running through it and causing a total loss of \$40.

ART CLUB'S FORUM TO HEAR DISCUSSION

A discussion of the parts great men and women have played in human progress will feature the Monday Open Forum of the California Art Club, Barnsdall Park, this evening. H. O. Romayne and A. Santayana will lead the discussion and one of them will give expression to the idea that many of the so-called great have not done so much. The forum begins at 8 p.m. and is free to all.

ANGELENO TO TEACH IN AFRICA

Woman Expert on Hygiene
Leaves for Distant Land
to Introduce New Work

British South Africa is interested in mental hygiene as taught in Southern California, and a Los Angeles woman, Miss Lucille Thompson, daughter of Mr. and Mrs. G. W. Thompson, of South Bronson, has been selected to introduce the comparatively new work at the University College, Pretoria.

Miss Thompson left last night for Africa where she will be great at least a year. Her work here was largely with the State Board of Health and dealt with the organization of children for defective and delinquent children and with their parents. She has been in California eight years, coming here from Boston. Her last work was the completion of a survey at San Diego.

"The offer came as a surprise to me," Miss Thompson said last night. "The work will be tremendously interesting. Here the work would be done by the Rockefeller Foundation but there the university is a government school and will be done by governmental authority."

Miss Thompson is a graduate of the University of Missouri and her friends state that her work has made her a recognized authority on mental hygiene. She left on the Santa Fe and will sail in August from New York for London and then to Cape Town.

SERVICE TO BE BETTER
Bus Company Executive Tells of
Improvement Plans

Improved service and accommodations will result from projected improvements and expansions on the motor-stage systems of the Southern Pacific Motor Transport Company and Pickwick and Yellow Lines, it was stated by T. B. Wilson, president of the Pacific Transportation Securities, Inc., holding company for the merged lines.

Mr. Wilson came to Los Angeles last week for a conference with Charles F. Wren, chairman of the executive committee of the holding company, and other officials of the lines. He returned to San Francisco last night.

SCHOOL HEADS ASSIGNED JOBS

(Continued from First Page)
avenue; Joseph L. Kendall from Loma Vista avenue to Machado; Leslie Bradley from Chatsworth Park to Owensmouth; Israel P. Thurston from Wadsworth street to Rowan avenue; Beth Houston, Banning from Elysian Heights to Union avenue; George Edgcomb from Loma Vista avenue to Wadsworth street; Myra E. Balle from Fourth street to Woodman avenue.

The following are newly elected principals and the elementary schools to which they have been assigned:

Edna Hartshorn, Chatsworth Park; Guy Holliday, Fern avenue; Carl Dane Thomas, Girard; Marie Roy Thorpe, Ivanhoe; Elizabeth S. Jordan, Loma avenue; Ruth M. W. Andres, Rocha street; Ruby C. Fessell, Serrania avenue; and Louis R. Vandegriff, Tujunga. Vis R. Ball has been elected as a substitute principal and assigned to the Mayler-street school.

Veteran Group to Install New Staff Tonight

The annual installation of officers of Quentin Roosevelt Chapter, No. 8, Disabled American Veterans of the World War, is scheduled for this evening at Patriotic Hall. Retiring Commander Hugh E. Finney announces that officers and guests of national importance will be present to assist in the ceremonies.

The chapter is the largest west of Chicago. National Commander William Murphy of Santa Ana, assisted by State Commander Roland Curran of Bakersfield, will install the new officers. This will be Commander Murphy's first stop on a projected journey throughout the country in an increased membership campaign.

Representative Cral, as a member of the House World War Veterans' Committee, will talk to the veterans on the Rogers hospital bill, now before Congress.

ZONING ORDINANCES ADOPTED BY COUNCIL

Ordinances placing property on both sides of Twentieth street between Gramercy Place and Cimarron street in Zone B and placing property in Kingsley Drive and Harvard Boulevard between First and Second streets in Zone B have been adopted by the Council.

IMPROVEMENT AUTHORIZED

The final ordinance for the improvement of Monte to street between Clifton street and Avenue 28 has been adopted by the Council. Another ordinance for the improvement of the Coldwater Canyon Drive and Cherokee Lane district, Works Committee.

JAPANESE OPEN PHOTO SHOW Public Invited to Camera Art Exhibit

Bench Warrant Out for
Mrs. Eunice Martin

Two Assistants Face Court
on Theft Charge

Sister Granted Trial Delay
Due to Illness

Police have been ordered by Municipal Judge Ambrose to conduct a more vigorous search for Mrs. Eunice M. Martin, cult leader, for whom he recently issued a bench warrant when she failed to appear for trial on petty-theft charges in connection with her "Society of the New School of Applied Christian Psychology." Trial of Mrs. Mary Caldwell, her sister and assistant, has been continued until August 14, next, on showing that Mrs. Caldwell is seriously ill in a hospital.

John L. Snyder and Bernard Byrn, also assistant of Mrs. Martin, are to go to trial on the petty-theft charge before a jury in Municipal Judge Thompson's court this morning.

The four are jointly charged with petty thefts by members of Mrs. Martin's "society," who declared that they were induced to join by promises that they would receive \$100 each in return for the \$25 membership fee. According to City Prosecutor Nix, more than 2000 members of the society paid in sums ranging from \$2.50 to \$10 relying on the asserted promises.

**FUNERAL
OF PIONEER'S
SON TODAY**

Arthur O. Parker, Early
Resident of Los Angeles,
Called by Death

Funeral rites will be conducted in the Little Church of the Flowers, Glendale, at 3 p.m. today for Arthur Orchard Parker, resident of Southern California for forty-four years, who died after a brief illness at his home, 220 Al-jen Boulevard. He was 54 years of age and the only son of Philip Walter Parker, one of California's pioneers.

Coming here with his father forty-four years ago, Mr. Parker settled in Eagle Rock Valley, moving to Los Angeles twenty-seven years later and engaging in the real estate business. Several years ago he retired but continued to interest himself in civic affairs, at one time being a candidate for Councilman.

In addition to his father, he leaves his widow, Mrs. Bella M. Parker, two daughters, Mrs. Mildred Parker Colburn and Mrs. Charles Staufenberg, and four sons, Mr. May Parker Ellis, Mrs. Louis Los, Mrs. Hugh Cornwell and Mrs. Clarence J. Coburn.

**ANGELENO EXPIRES
IN OCEAN PARK SUB**

Settled with either a heart attack or a spell of acute indigestion, Mayer Flansburg, a retired business man, 54 years of age, of 1804 1-2 West Jefferson street, died yesterday while bathing in the surf at the foot of Bay street, Ocean Park. The body was washed ashore about 6 p.m., but the theory of drowning was scouted by Assistant Fire Chief Marshall when an examination revealed but a small amount of water in the lungs.

Life guards responding to cries of other bathers who discovered the body rushed the victim to the Santa Monica Clinic, where firemen, under Marshall's supervision, applied a first-aid treatment for an hour in an effort to resuscitate him, to no avail. The body was removed to the Kirtland funeral parlors, Santa Monica, where the man's son, Phillip, later identified him.

Young Flansburg said he had remained on the sand with his mother, while the older man entered the surf. When he did not return within reasonable time, the son appealed to police and the identification followed.

Wife Swallows Chloroform
at Home of Mate

Attempt Follows Failure
of Reconciliation

A glance at the picture of a 6-year-old baby yesterday prevented the death of Mrs. Irene Night, 35 years of age, according to surgeons at Dickey & Case Emergency Hospital, where she was taken last night following an assault on her husband at the home of her estranged husband, 1815 Wilcox avenue.

Arrived from the effects of a dose of chloroform she had taken, Mrs. Night told the doctors, according to the police, that she went to the home of her husband, from where she had been separated about a month. She had hoped a reconciliation would result.

On her arrival there, she said she saw her husband in the company of a blond woman. An argument ensued, and Mrs. Night rushed into the bedroom, seized a bottle of chloroform and swallowed one-quarter of the contents. Then she caught a glimpse of her baby's portrait on the dressing table and decided her life was worth living, after all. So, she flushed the bottle away and notified the nearest physician.

At the hospital, the entire contents of the bottle would have been emptied from her system.

Mrs. Night's address is 1021 Grant street.

CONSULATE ATTACHE WARNED ON PARKING

Judge J. LeBrun, attache of the Mexican consulate here, must be more careful where he parks his car, Municipal Judge Northrup warned in dismissing a charge of parking in a loading zone against the automobile of Victor J. LeBrun. Attached to the consulate is a letter from the Mexican Vice-Consul in Los Angeles, pointing out that the automobile of Victor J. LeBrun, councillor of the consulate, had been parked by LeBrun in a loading zone in front of the consulate, at 220 North Los Angeles street, during a rush of business at the office. Judge Northrup suggested that the consulate obtain a permit from the Police Commission for parking a special car for official business use.

of Reconciliation

A woman in the picture of her
husband's life, presented
to the public, is the story of
a woman who, after a long
and painful struggle, has
found a way to save her life.
The story is told in a
series of pictures, which
show the woman's life from
the moment she was born
until the moment she died.
The pictures are arranged
in a way that shows the
woman's life as a whole,
and not just as a series of
isolated incidents.

INSULATE ATTACHE VARNED ON PARKING

Judge Northrup, in a
decision rendered last
week, has ruled that a
man who parks his car
on a public street, and
uses it as a place for
business, is liable for
damages. The judge
said that the man who
parks his car on a public
street, and uses it as a
place for business, is
liable for damages to the
public. The judge said

Interest in conservation of
forests and the replanting of
burned-out areas has shown a
steady growth in the public
schools since the creation of a
reforestation division some
five years ago, according to
a recent report presented by
that department to Frank A.
Boussie, superintendent of
schools for the Los Angeles
City District. During the past
school year 1828 pupils and
143 adults have visited the
Clear Creek project, which has
been the scene of the reforestation
program. These pupils came from
the elementary, the junior and
senior high schools, and visitors
were registered from several
foreign countries and from many
parts of the United States.

BOWL BIDS AU REVOIR TO LEADER

Heap Honors on Molinari, Italian Ennisary, Who Will Return Next Year

BY ISABEL MORSE JONES
The eighth concert of the season at the Hollywood Bowl Saturday night was the last Molinari program this year, but the cheering announcement of his return next summer for four weeks sweetened the regret felt by the huge audience. For his final concert the Italian maestro chose Beethoven's fifth symphony, certainly his most popular one, the melodious minuet and air from Chopin's "Opus," Mendelssohn's "Midsummer Night's Dream" with its enchanting flute passages, the brilliant and barbaric "Night on a Bald Mountain," by Mussorgsky and the delicate semi-romantic overture by Rossini. It was triumphantly approved by a very large Bowl audience.

The Beethoven symphony moved along rapidly to its conclusion. One felt its progress to be unobtrusive, and well poised; but certainly there was no pause for contemplation. Clean enunciation of the musical truth of Beethoven's art, and the fact that the maestro's interpretation, but the fifth symphony gains by a weightier, more profound interpretation.

The minuet and lovely air from Chopin and Beethoven was a model of lyric Italian beauty. Those who heard the "Midsummer Night's Dream" were certainly charmed by a perfect performance, dainty, uniform, the very essence of schooled good taste. Mapagnara, Fiorio, De Summer and Ferrer distinguished themselves by their excellencies.

It is one of the wonders of Molinari's versatility that he displays such grandeur, with the baroque splendor of the Russian pictorialism. "The Night on the Bald Mountain" with its spirit of darkness, its mad gales and its witches gyrating in the reddest colors of a Bakst bacchanal might seem, upon first thought, quite foreign to this aristocratic triad, but after listening to his Mussorgsky and the dances from "Prince Igor" it is easy to discover his kinship with the Russian choir for color and drama in orchestra.

Rossini's opera overture, "Semiramide" had a virtuosic performance. Tossing, dipping, wood-chimed, dramatically effective crescendo and the balance of gaiety and rhythm maintained through it all made it delightful, familiar as it is. A wreath of mountain laurel tied with the colors of Italy and ornamented with decorative palm leaves was given the conductor with a few gracious words from the chairman of the Bowl committee, Mrs. Leland Atherton Irish. The audience added many bravos and the orchestra complimented the maestro with a fanfare.

Tomorrow Eugene O'Neill will be welcomed back to the Bowl. The new Reginald number, "Festivals of Rome" is not to be played, however, as there is some difficulty about the music. It will be given later.

"Four Feathers" Premiere Will Attract Stars

When film stars turn out Wednesday night for the opening of "Four Feathers" at the United Artists Theater, among those who will pay tribute to the new film are Richard Arlen, George Bancroft, Clara Bow, Evelyn Brent, Nancy Carroll, Ruth Chatterton, Maurice Chevalier, Gary Cooper, Richard Dix, William Powell, Charles Rogers, Jean Arthur, Madeline, Mary Brian, Doris Hill, Kay Francis, Helen Kane, Esther Ralston, Neil Hamilton, Fay Wray, James Hall, Raymond Hatton, Hal Skelly and others.

The "Four Feathers" premiere is scheduled to be one of the most brilliant of the season, and is the culmination of two years of work both in Africa and in the local studio. The film is said to be one of the best to come out of Paramount studios.

Maurice Chevalier will appear at the theater and will introduce members of the cast.

A specially created "Pathway of Stars" will lead directly to the entrance of the theater. Traffic will be diverted from Broadway between Ninth and Tenth streets.

"Madame X" to Close Shortly

"Madame X" closes its engagement at the Fox Criterion Theater tomorrow night. On Wednesday morning "Showboat" will open up its calliope and tie up at the Criterion dock for a popular run.

Four factors indicate that the Criterion run of "Showboat" will be a record-breaker. It is a big, first, advance telephone calls are greater than at any time in months. Second, the sale of Edna Ferber's novel now has reached unprecedented proportions. Third, the fame of Ziegfeld's musical version through records, radio and music rolls has reached every hamlet, and fourth, the run of "Showboat" at the Billmore has served to advertise the picture in all parts of Southern California as Universal's premiere singing-talking attraction.

BURLESQUE PLEASES
"Parian Firs" is the title of the new burlesque offering current at the Burbank Theater and it comprises a novel mixture of comedy, dances and musical numbers, scenic and lighting effects with the chorus of youthful misses in an array of colorful costumes.

A new member of the comedy team is Henry Sherr, an old-time favorite, who teams with Charlie Fletcher. Max Pay Norman is pleasing in his dance creation. Curly Macen, June Rhoads and Jane Hasketon carry off high honors additional in the show.

MARY NOLAN PRAISED
Mary Nolan is receiving praise for her characterization of Anne Marie in "Charlton's Sunner" at Paramount, which recently had its premiere in New York. She has been credited with the outstanding performance of the cast.

Night-Life Revelry Pictured

DR. LEWIS EFFECTS A MIRACLE

Properties of Heat, and Cold Discovered on Stage at Orpheum

BY PHILIP K. SCHUBERT
Modern builders labor mightily for our comfort. Thus the men who sent the edifice known as the Orpheum soaring into the blue, were thoughtful enough to equip its inside with a refrigeration plant. On very warm days, they counseled us, the refrigerating plant would make us cool. Yesterday an itinerant musician named Edward (Red) Lewis threw down the gauntlet to them; the best-laid plans of ice and men went gadding aft legs, and the Orpheum became, in half an hour, the torriddest place in town.

This was a fresh miracle. What is to become of science—nay, civilization, if an unlettered man, one without a degree to his name (unless it be, perhaps, 120 Fahrenheit) is allowed to enter an air-chilled auditorium, mutter abracadabra, "Ila, "Ia everybody happy!" and "Get hot!" and cause thereupon such an instantaneous change in the atmosphere that an ordinary derby hat, touched by the wetted fingers of this same "Dr." Lewis gives off a stink that could be produced only by contact with the most intense heat?

I give it up. Dr. Lewis's assistants—Miss Lalah, Eleanor Brooks and the Musical Klovns—are not far behind their leader in his manipulations. "When That Curtain Comes Down," "China Boy" and "Fagan Love Song" are new musical numbers on the program—not that it matters much. For myself, I wouldn't trade Dr. Lewis's half-hour for any other in town.

Benny Rubin is current master of ceremonies. It falls to his lot to introduce what seems to me a notably unimpaired group of performers—although it may not be that they are so hot, but that Dr. Lewis is so good.

"Showers" is one of them. It is not, by any faintest mechanism, the ballet by James Alden Carpenter, but one of those night-club shows with a master of performance, a group of principals, eight Broadway flappers and Jack Lee's Ten Dicks. I could never begin to tell you all about it. The band isn't hard to listen to, and Clifton and Webb are perfectly dumpy in their acrobatics, which makes for laughter.

The cast includes Jack and Kay Spangler, Buddy Post, Rose-Marie Marston and Ray Coleman. Wilson, Koppel and Betty, unique entertainers in a somewhat British music-hall fashion, dance so lively that they never become dull. Peter Higgins is an acting actor whom I had some difficulty in classifying. At first believing him to be a concert artist, I was only dissuaded when in a number entitled "I'd Do Anything for You," he reached a classic line about "tearing a hair" with somebody or other.

Nathel, "The European Marvel," climbs agilely all over the theater in a demonstration of how a man looks acting like a monkey—a much harder feat, when you come to think of it, than it is for a monkey to act like a man.

Then there is, or are, the Dixie Four—exactly that number of colored gentlemen in songs and yodeling. Unlike my neighbors, who appeared to derive keen pleasure from them, I thought they were crude, noisy and lacking in almost all the characteristics which one naturally would associate with an act called the Dixie Four.

Benny Rubin has a new line—new for Benny—and uses it well.

DENNY PICKS HARD JOB AS SALESMAN

"His Lucky Day," Current Film at Pantheon, Brings Only Bad Luck

Horse shoes and four-leaf clovers may mean good luck, but not for real estate agents! At least this is the impression one gleams from watching the antics indulged in by Reginald Denny, advertising the aforementioned cinema. Denny finds himself in luck well enough . . . but all of it is bad.

"His Lucky Day" is the title of this latest opus starring the Universal favorite and showing currently at the Pantheon. Any other name would fit the picture as well, however. It is typically Denny-esque in plot, in gags and in character.

Denny once again basks in the sun of mistaken identity, suffers humiliation and what-not at the hands of crooks . . . only to turn on them with his inimitable "ha-ha" as a parting shot.

There is, however, one mildly startling phase to "His Lucky Day." It is three-fourths a silent picture. The final talking sequence neither adds to nor detracts from the production.

What little plot there is deals with a young real estate agent whose job it is to rent a large estate which has long stood vacant. This necessity is stressed by the fact that only in so doing will he be able to procure an option on a neighboring domicile.

After assuring some interesting looking prospects that they may have the first and last month's rent free . . . providing they take the house in two months. Mr. Denny is embarrassed to discover that his tenants are a band of notorious crooks.

A youthful member of the gang makes things tough for Denny where the love interest is concerned. All difficulties are unraveled in the final reel, however, when Denny calls the Chief of Police by his first name and obtains a release for the girl and her father . . . who were visiting the new neighbors when the wagon pulled up at the door.

With comedy outstripping the bounds of reason at times, the production has to rely solely upon a few original gags and some snappy subtitles to put it over.

Denny's characterization could have been lifted from any of his other pictures and inserted in "His Lucky Day" without anyone being the wiser.

LoRayne DuVal proves an effective leading lady. Otis Harlan gives an outstanding performance as the gentleman crook. His comedy never fails to register.

Eddie Phillips, Harvey Clark and Cissie Fitzgerald are others in the cast.

Winona Winter, ever a popular

Lila Lee
Has a featured role in "Boyd Soars Into Air Romance" starting today at Warner Brothers Theater, as the daughter of Sophie Tucker, cafe entertainer, whom she believes to be a concert singer.

BOYD SOARS INTO AIR ROMANCE

Dangerous, dare-devil dynamite is William Boyd in "The Flying Fool." The sky's the limit for the next five days at the Hillstreet where this faith romance of the air is providing laughs and excitement.

James Oleson wrote the quick-firing dialogue and Tay Garnett accomplished some good in the line of direction. Earl Burdett and his Rialto Billman Trio are featured.

The real criticism is that it takes quite some time to gather proper momentum and the climax is not the smashing one expected. Individual scenes are excellent; one in particular with the two brothers sniffling white roses side by side and dreaming of the same maid.

Brotherly love dominates the romance angle, and action is displayed throughout.

As to performance, Bill Boyd, as the smart-chap older brother, is always likeable and displays a fine flair for comedy. Marie Prevost returns again as the night club entertainer and sweetheart of the Taylor brothers. The role is sympathetic and she handles it nicely.

To her also is given the theme song which she sings long, professionally, and only twice. All the humor of the kid brother trying to grow up is brought out by Russell Oleson. Russell has a distinct personality and promises to be one of the foremost juveniles.

The plot is not out and dried. But that is due more to treatment than to detail. Bill is a stunt flyer and an airport. When not on duty he takes care of the town's feminine population. He meets Marie when

headliner at the Pantheon, returns this week on the vaudeville bill. Although her sketch is identical to that presented in previous appeal. The chorus-girl characterization is particularly pleasing.

"Memories of the Opera" is another act deserving of special mention. Lovers of classical melodies and the opera will no doubt find much to commend in this offering for songs and characterizations. Other acts include Mack and Mack, acrobats; Cergy, comedian; dancer, and "Ditto 14," a patter and dance revue.

A Collegian talks comedy and a sound newsworld complete the program.

Circle Arranges World Premiere of "Dynamite"

The most important midsummer theatrical event of the year, it is said, will take place at the Fox Carthy Circle Theater Thursday evening when Cecil B. De Mille's first all-talking and first Metro-Goldwyn-Mayer production, "Dynamite," has its gala world premiere.

Elaborate preparations are being made to make this one of the most colorful and important of all Circle openings.

"Dynamite" marks the return of De Mille to the realm of the exotic in picture productions. He again reverts to stories of people in high social places, and the picture is said to be replete with scenes of elaborate parties, beautiful women feigning to be dumb, and the like, unfolding a story of dramatic appeal with many scenes of intensity, including a mine explosion.

Hal Rosson's all-talking burlesque, "Madame Q," and Carl Ellnor's popular orchestra in a special concert program are added features. "Four Devils," with Janet Gaynor, will close Wednesday evening.

NEW SHOW AT FOLLIES
"Flapper Vampires," with a cast of accomplished players, is providing a hit at the Follies Theater this week. Max Coleman and Bumps Mack prove themselves well-acquainted comedians. Evelyn Mayers, blond principal, is attractive and sings well. She is also a clever dancer. Louise Keller and Mary Wilson, comedettes, take quite a part in the various scenes and lead several numbers that are well received. Walter Van Horn appears in several scenes with character impersonations. The girls of the chorus dance in union, with clever costumes, and their formations are of special significance in the show. The Follies opens with an entire new cast of burlesque stars Sunday.

Illness Forces Star to Close 'Coquette' Run

Acting on the advice of her physician and suffering from exhaustion caused by eighty-five consecutive weeks of emotional strain from her performance in "Coquette," Helen Hayes has canceled the final week of her engagement at the Belasco Theater.

Miss Hayes was ill on Monday and was unable to give a performance. She collapsed again Saturday after the matinee and the evening performance was not given.

The Belasco will be dark until Saturday night when the first performance of "The Front Page," previously announced for Sunday, will be given. The rowdy newspaper drama engagement is limited to two weeks, closing August 11. "The Front Page" will be presented by the same cast that scored in the previous run at the Belasco.

Beach Pleasures Draw Thousands of Angelenos for Week-end Frolic

Surf Calls to Daughters of Neptune
A group of juniors of the Santa Monica Bay Woman's Club sporting in Pacific Ocean.

ANGELENOS by tens of thousands yesterday flocked to the beach and strolled in the invigorating waves, cooling breezes and shining sand made ideal conditions for a one-day vacation. Thousands en-

joyed the pleasant waters. Many more thousands picnicked on the beach or strolled in the invigorating waves, cooling breezes and shining sand made ideal conditions for a one-day vacation. Thousands en-

Beach guards were kept on the alert watching the throngs which swam, dived and frolicked in the waves. Beauty in strikingly modern swimwear predominated on shore and in the surf. Tourists from the East expressed astonishment at the complete absence of

poorly dressed. Amusement piers and beach front entertainment places were besieged by crowds. Dancing floors, scenic rides and beach amusements did their share to make the multitude happy from morning until night. Altogether it was a large day.

RIFT OPENS IN ASTAIRE ROMANCE

Film Actress Back From East Admits Walter Kane and She Have Parted

Twelve months ago Marie Astaire, film actress, dropped from sight in Hollywood, and the next thing that was heard of her was that she was in New York and the wife of Walter Kane, a stage actor. Yesterday Marie Astaire was a back in the capital of film. She imparted the information that she and her husband have come to a parting of the ways.

"We separated two months ago, but as friends," she confided. "He is a wonderful chap and I know he will make good in talking pictures, but he needs a few more rehearsals as a husband," she said jokingly. The talkies also brought Marie Astaire back to Hollywood. Whether or not a reconciliation is possible Marie Astaire was unable to say. She does not, however, contemplate divorce proceedings, for the present, at least. Before she left Hollywood Marie Astaire won considerable fame as the Christie in as well as Metro-Goldwyn-Mayer and Fox films. Her husband came to Hollywood from the eastern stage under contract to R.-K.-O.

"FINE ART OF LIVING" TOPIC
The "Fine Art of Living" will be the subject of a lecture by Mrs. Marie LaBelle Booth of New York City, who will speak before the members of the Laguna District Women's Club tomorrow afternoon at the club quarters, 521. Ninth street. Mrs. Booth has lectured under the auspices of a number of daily newspapers in eastern cities.

GIRL'S FILM HOPES BURST

Arrest Here on Charge of Check Forgery in Ohio Ends Quest for Fame and Riches

Long-cherished dreams of fame and affluence from a career as a screen star prompted 18-year-old Anna Bogdan to forge a check for \$400 in Lakewood, O., two months ago, she told police yesterday. She was arrested on a telegraphic warrant and lodged in the County Jail to await extradition to answer the charge.

Anna Bogdan

The warrant, according to Detective Lieutenant Gillette and Ryan, who took the girl in custody at her home, 7608 Santa Monica Boulevard, charged violation of her parole and was issued at the request of her father in the Ohio town. Two months ago, the officers report the girl told them, she decided to come to Hollywood as the result of the urgings of her friends, and seek a film career. Being without funds, she forged a check for \$400, was arrested and paroled in custody of her parent, with the understanding that she might make the trip here and make restitution out of her earnings from the screen. Meantime, she said, her father has been paying off the check; but, according to the officers, the girl has failed to fulfill her agreement to reimburse him. She told the detectives she has been unable to obtain the anticipated employment at the studio.

AIR COMPANY OFFERS SIGHTSEEING FLIGHTS

Daily sightseeing flights over the ocean in the vicinity of Avalon, Catalina Island, have been inaugurated by Western Air Express, according to Hal M. Shields, general passenger agent. The flights are made in the new Boeing five-passenger seaplane. Coincident with the announcement, Shields said, nightly sightseeing service over Los Angeles and suburbs is maintained from the new terminal on Valley Boulevard. The company also operates the twelve-passenger, trimotored air liners on short trips every Saturday and Sunday afternoon.

SENTENCE SET FOR TODAY

Charles A. Summers is to appear today before United States District Judge James for sentence following conviction on a charge of stealing a postal money order from the Inglewood postoffice.

OLYMPIA GUILHERME

Lacking funds to employ "atmosphere" Guilherme exploited the clemency of Los Angeles. When an ambulance was needed a traffic accident was faked in the downtown section of the city and policemen, unaware of the hidden cameras that were grinding away, suggested one.

With a cast of but a handful of principals the resourceful Brazilian filmed twelve reels, many of them featuring realistic "mob scenes" and dramatic situations. Depleting the "comeback" of an outcast, Guilherme "peddled" puppets on the streets of Los Angeles to unsuspecting Angelenos and ran afoul of an official of the R.F.C.A. He got arrested for stealing a milk bottle from a baby carriage when an indignant nurse made an outcry.

In numerous other shots the South American beguiled a sympathetic or amused public to act for him without cost or knowledge of so doing. Lola Selvi, Italian winner in the same contests in which Guilherme was chosen from Brazil, plays the feminine lead in his drama, which he has cut to seven reels and has entitled "Hunger."

School Honors Two Musicians

A reception is to be given this evening in the Student Union by Dean W. F. Skelton and the faculty of the college of music, University of Southern California, in honor of Dr. Howard Hanson, director of the Eastman School of Music at Rochester, N. Y., and Eugene Goossens, also connected with the Eastman school, who is appearing as guest conductor at the Hollywood Bowl this week, whose teeth courses at the summer session.

Invitations have been issued to officials of the Hollywood Bowl Association, members of Pro-Musica, the music department of the public schools, and various distinguished musicians.

KAPPA SIGMAS End Convention With Election

Rollie W. Bradford of Denver was elected Worthy Grand Master of Kappa Sigma Fraternity at the closing session of the four-day convocation at the Ambassador yesterday. Other officers elected were Oliver J. Decker, Worthy Grand Treasurer; W. L. Prince, Worthy Grand Master of Ceremonies; Jeremiah P. Ferguson, Worthy Grand Scribe; and George R. Rea, Worthy Grand Treasurer.

A number of invitations were presented for the next session but the city was not decided upon. Plans were discussed for making members life subscribers to "Caduceus," the fraternity magazine, and resolutions were adopted providing for a limited expansion of the fraternity. The closing event was a banquet and ball, presided over by Allan G. Ritter of Los Angeles.

NICKNAMES STICK TO HOLLYWOODITES

Nicknames hung on Hollywoodites sometimes have sticking qualities. There is Marion Byron, dancer and singer at Warner Brothers studio. She says nobody knows her real name any more. She is just "Peasnuts."

A number of months ago she was rehearsing at a Hollywood theater for a musical comedy. The dancing instructor was a trifle strict with the girls that day and this perturbed Marion Byron and she got "sassy" to him.

"You're so fresh you ought to be roasted," he told her. That was the cue. Somebody hung the monicker "Peasnuts" on her and it has stayed with her ever since.

ANGELENOS PLAY EXTRAS IN BRAZILIAN'S FILM OPUS

"Come the talkies." Two years ago one of the leading film producers of the Pacific Coast instituted an international quest for foreign talent. Feminine beauties and potential male stars were selected and brought to Los Angeles from European countries, Central and South America, and other places to become cinema celebrities.

Then "Hollywood went talkies." Promising careers were cut short and numerous might-have-beens were hurried home. Not so, however, Olympia Guilherme of Brazil. Undeterred by his inability to speak English well enough for the films, the Brazilian, a former newspaper man, set out to produce a "brain child" of his own in his own ingenuitous way.

LAFOUNT'S STAY HERE CONTINUED

Commissioner Remains for Tonight's Program

Has Been Named Delegate to Hague Meet

Topsy-Turvy Bill Feature This Evening

BY DR. RALPH L. POWER
Federal Radio Commissioner Harold A. LaFount has changed his itinerary to allow an extra day in Los Angeles, five in all. He therefore will leave tomorrow night instead of this evening.

The rest of his inspection tour will include a day in Phoenix, two at Salt Lake City, the same length of time at Denver, and finally back to Washington.

Of particular interest at this time is the announcement from Washington that Commissioner LaFount has been appointed by the President to be an American delegate at the European Radio Conference.

TO BE DELEGATE

The group met at Prague earlier in the year. The next meeting will be held at The Hague in the middle of September. Mr. LaFount is, therefore, anxious to return to Washington and study up on the situation before departure.

Mr. LaFount said yesterday that he would appoint Capt. Guy Hill as his technical adviser on the trip. Hill, a fellow of the Institute of Radio Engineers since 1918, is assigned to the Signal Corps Laboratory, United States Bureau of Standards, but has been detailed to special duty with the Radio Commission.

DILIGENT LISTENER

It is understood that The Hague conference will deal largely with short-wave assignments and amateur regulations.

In the meantime Mr. LaFount will listen to our local programs again this evening and broadcast have arranged various types of entertainment.

KHJ, the Don Lee station, at 8 o'clock will release the Blue Monday Jamboree which originates in the KPHO studios, San Francisco. Incidentally, a week ago Mr. LaFount was in the KPHO studios during the jamboree frolic.

The jamboree staff is described as "the edited collection of radio articles on the Pacific Coast, in humor, songs and antics designed to kill the worst attack of mental blues."

Tonight's offering will be in the form of a topsy-turvy affair. Every one will do something just the opposite of their ordinary radio character.

TOPSY-TURVY

For instance, Robert Olsen, classic composer, will read off some comic numbers. Frank Watson, Japanese gentleman et al, will become a dramatic reader for the time being. Mac, instead of singing ballads, will may the role of the balladist.

The Pearce Brothers, exponents of popular air, will feature their premiere appearance in an operatic duet. The concert orchestra will try to furnish a rag-time overture.

David Griffith Back Home With Plans for Film

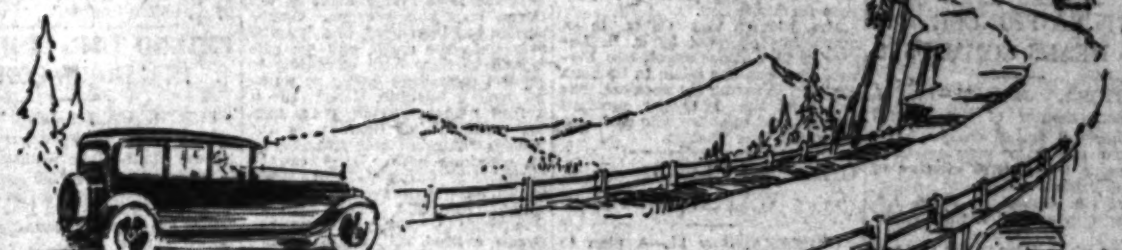

David Wark Griffith returned to Los Angeles yesterday after an eight months' absence with plans for the making of a historical picture dealing with the conquest of the Southwest. The picture will portray the westward trek of the Virginians and Kentuckians into the Empire of Texas and Mexico.

The picture, according to representatives of Griffith, will inaugurate new features in the sound phase of the industry and they assert it "will be the greatest ever produced." The story is to be built around the personal adventures of the father of Griffith, who was known in Civil War days as "Roaring Jack" Griffith.

PLEA FOR ADDED FUND BEFORE COMMITTEE

The Police Commission's request that an additional \$6000 a month be allocated to the secret service fund of the police department, for the suppression of the traffic in liquor and narcotics, has been referred to the Finance Committee.

Along the Road to Happiness!

A RIBBON of hard surfaced highway—sweeping away into the horizon.

A rolling landscape—fringed with oaks, and sentinel eucalypti, like Gargantuan mile-stones silhouetted against the reddening sky.

The tang of pine in your nostrils—the meddled song of the mocking birds in your ears—and the thrill of freedom in your soul.

Worth waiting for—and PLANNING for.

But into that pre-vacation planning must be much practical foundation work.

YOUR CAR? Will it do its vital work with dependence and precision—at all times?

If there is any doubt—turn to The Times Automobile Columns TODAY.

This ready index of the Car Market can assist you tremendously—speed your plans, and conserve time and energy. It offers every model, make, and price—conveniently listed to aid your choice.

HOTEL ROOMS AT PREMIUM

New Border Rule Fills
Hostelries at Mexicali

American Communities Take
Exception to Order

Early Closing of Boundary
Gate Proposed

CALEXICO, July 21.—Two hundred citizens of the United States, based with exclusion from Mexicali, Lower California, where they are employed, by an order of the Mexican Federal government to the effect that foreigners working in Mexico must live in that country, rushed to hotels across the line from here last night and this morning to rent rooms and establish residences. The order went into effect today.

Although Gov. Abelardo Rodriguez of the Northern District, Lower California, formally had announced the ruling some time ago, he said last week he expected it to be modified. Mexican immigration officers said last night the mandate had not been changed, and would be enforced. Surprised, the Americans left their homes in Calexico and flocked to Mexicali.

All rooms at the Commercial Hotel, Mexicali, premier hotel, were taken last night, and accommodations were at a premium. The Americans said they would stay at the hotels until the order was repealed or modified, or until they could find houses in to which their families could be moved. The ruling does not affect an equal number of Mexican citizens living here but employed in Mexico.

The reaction to the edict, issued at the request of the Mexican government, was to be called a "border" in an effort to alleviate the labor situation in Calexico and other Imperial Valley cities was taking the form of discussion of various retaliatory measures.

It was indicated that a mass meeting of Calexico business men would be called tomorrow to discuss the ruling. Protesters to Gov. Rodriguez, who now is vacationing in San Diego, and the Mexican government were considered. Some suggested sending to close the border, which is allowed by American officials here to remain open until 9 p.m. at 6 p.m. while another rumor said the meeting would seek to have the United States government place a similar restriction of Mexicans employed on this side of the line. It was estimated that there were several hundred Mexicans employed as clerks and delivery men and in other capacities in Calexico while living in Mexico.

Today being Sunday, few Americans were working in Mexicali, and more attempted to cross in spite of the ruling. There was no disturbance at the international gate.

New Minister at Cucamonga

CUCAMONGA, July 21.—Rev. E. R. Chamberlain of Whittier, has been called to the pulpit of Cucamonga Community Church. It was announced today. He will take the place of Rev. Donald H. Clark, who resigned the pastorate to become director of religious education in the First Methodist Church at San Antonio. It is believed that Rev. Chamberlain's call will be verified at the general conference this fall.

VENTURA PIONEER HEADS COMMITTEE

VENTURA, July 21.—E. M. Sheridan, curator of the Pioneer Museum, will act as chairman for a special committee meeting called to precede the general meeting of the California Development Association at the Alexandria Hotel, Los Angeles, on August 9, it was learned today.

Mr. Sheridan later in the day will address the pioneers' meeting, acting as a representative of this section.

The committee work will be to point out scenic and historical locations along the different routes, and the Ventura representative will indicate the landmarks in this section.

Persons of prominence in the southern section of the State will be present at the meeting, which John S. McGroarty is to be one of the speakers.

UPLAND VETERAN ATTENDS CONFERENCE

UPLAND, July 21.—John D. Howe, prominent Upland lemon grower, and Mrs. Howe, left here today for Belgrade, Jugoslavia, where he will be California's representative at an international peace conference sponsored by Fidac, world-wide war veterans' organization. One representative has been chosen from each State of the Union to go to the peace conference with Paul V. McNutt, national commander of the American Legion.

ADDITION TO LIBRARY

Plans Prepared for Addition to Huntington Institution at Pasadena

PASADENA, July 21.—Plans for a \$100,000 addition to the Henry E. Huntington Library and Art Gallery are being prepared by Myron Hunt, local architect, it was learned today. Ground for the addition probably will be broken this fall, it was asserted.

Officials at the library declined construction of the addition will be started at that time. The library has been filled to capacity almost every day in the week and it has been necessary to secure tickets many days in advance.

Hundreds of letters have been received from persons in other States who are planning trips to Southern California.

OFFICERS STAGE MAN HUNT

Seek Human Fiend Who Attacked Woman and Left Her in Dying Condition Under Blazing Sun

RIVERSIDE, July 21.—Accused of assault with intent to commit murder, Salvador Lopez, 30-year-old Indian, is the object of a man hunt which is being held in the arid and heated desert of the Coachella Valley.

Barstow Man Fails to Pass Forged Checks

ONTARIO, July 21.—Plans to plaster the community with bad checks went quickly awry here for Lee Jabobs of Barstow, who stood upon the busy rush hours of Saturday shopping to astoundly trick the merchants.

J. A. Carlson, manager of a department store, suspecting Jabobs' check, questioned him and Jabobs disappeared. F. H. Wallihan, secretary of the Business Men's Association, was notified, and Jabobs was detected in another store at the same time.

He was placed under arrest and will be arraigned in Police Court Monday. Jabobs first gave his name as J. Smith. The large amount of money carried by Jabobs aroused suspicion of the police, and they were checking his movements to learn if he had successfully "tricked" other communities.

Women Superior to Men in Auto Examinations

ALHAMBRA, July 21.—13 Alhambra women actually operate automobiles as well as they answer questions in the driver's license tests, may be forced to exchange places and do the back-seat driving themselves.

Women are more accurate than men in the examinations for new drivers now being conducted by the Alhambra police department, according to Sgt. Jack Havin, who is in charge of the tests. An average of 100 persons daily are appearing at the police department for examinations.

"Women take the tests more seriously. They study the questionnaires which we give out and come prepared to answer the questions," Havin says. "The men, on the other hand, are overconfident and make more mistakes."

Not only are women more accurate in answering the questions, but they take less time in filling out the blanks, according to the officer. "And they don't ask a lot of foolish questions, as many of the men do," he adds.

REDLANDS WOMAN BADLY INJURED

REDLANDS, July 21.—Mrs. Lucetta Dickson of the Hillcrest Inn, Redlands, was forced to submit to the amputation of the little finger on her right hand last night as the result of injuries received in an automobile crash at Second and 11th streets.

Her hand and arm were badly mangled and the operation was performed by Dr. E. L. Finkelsberg and Dr. F. E. Coughlin at San Bernardino. She was taken to Ramona Hospital following the accident. The driver of the other car reported the accident to police who said that his name was Dodson.

GARDENA PLANS WATER DISTRICT

GARDENA, July 21.—A plan to secure a county water district for this locality will be put before the local Chamber of Commerce in a mass meeting tomorrow night. William Davidson of the county engineering department, will be present upon the invitation of the chamber and will outline the county plans. The move was advanced by the Western City Taxpayers' Association and a rate of approval.

It is hoped to have the work under way before the middle of August and completed before January 1.

COURT'S APPROVAL SOUGHT FOR BONDS

SANTA BARBARA, July 21.—Approval of the \$60,000 bond for the building of the proposed California sewer system will come before Judge H. D. Gregory in Superior Court tomorrow morning. Proceedings were instituted to have the court decide the bonds valid some two weeks ago in order to give them an added guarantee, according to Fred H. Schaefer of the city auditor.

Bids for the construction of a main, an outfall sewer line and pumping plant will be opened by the board of trustees of the sewer district on the 26th inst. Engineers for the district have completed plans and specifications for the improvement. It is hoped to have the work underway before the middle of August and completed before January 1.

HONOR MEMORY OF ONTARIO WOMAN

ONTARIO, July 21.—Honoring the memory of Mrs. Luella Abrams Allen, mother of Crombie and E. L. Allen, Ontario, publisher, has placed a bronze marker on the grave of Mrs. Allen in Bellevue Cemetery.

Mrs. P. H. Wallihan, regent of the chapter, placed the marker and spoke in tribute to the noble spirit of Mrs. Allen. Miss Ethel Leake, vice-regent, read Mrs. Allen's D.A.R. record, and Mrs. F. W. Wallihan, chaplain of the chapter, offered prayer.

SEASON'S PRIZE FISH STORY

Valued Set of "Store Teeth" Play Part of Jonah and Come Back to Owner After Having Fallen into the Sea

ONTARIO, July 21.—Fishing season with its tales of slung fish that got away, is inspiring keen competition in Ontario now, but C. E. Topf, supervisor of grounds and buildings at Chaffey, has told the greatest whopper so far, and vouchers for its authenticity.

A group of prominent Ontario men, including Topf and C. E. Orier, went deep-sea fishing. Several of the party got sea-sick, but Orier got the stick.

While leaning over the rail of the boat, his teeth were lost, too. He became a trifle dicker when he saw his "teeth" sink into the depths of the sea.

Half an hour later Orier began to feel that he didn't like the idea of fishing. He caught a real fish, and hauled it aboard the craft, and slaked open the prize to draw it.

"Imagine my surprise," said Topf, "when he discovered his prize teeth in the stomach of the fish."

Orier admitted he lost the teeth, but couldn't tell how they got inside the fish.

COUPLE COMMIT SUICIDE

Son Discovers Dead Bodies of Parents When He Goes Home in Response to Phone Call

REDLANDS, July 21.—The bodies of Mr. and Mrs. A. I. Moore, well-known residents of Redlands, were found lying on the bed at their home, 228 Cajon street, this morning by their son, Les Moore, when he went to the house in response to a telephone call from his mother last night asking him to be sure and stop this morning on his way to open his service station in East Highlands. Police are convinced it is a case of double suicide carried out soon after the telephone call.

STUDENT WINS IN CONTEST

San Diego Woman Writes Best Essay on Aviation

SAN DIEGO, July 21.—Mrs. Myrtle Rose Workman, a student at San Diego State College, is the winner of one of the Alexander Eaglerock scholarship awards offered to college students of the United States for the best essay on "aviation." The contest was for the promotion of air-mindedness.

Mrs. Workman's prize-winning contribution was entitled "An Aviation Project." It was declared by the judges to be an ideal plan for the promotion of air-mindedness. It was a high-school aerodynamics teaching project plan, in which she states that the new era in transportation has dawned and the training and directing of the youth in the great field of aviation will have a far-reaching influence on the world's peace with the "industry that flies."

Mrs. Workman was awarded the territorial award, a \$500 flying license, and a \$1000 prize. She is the highest ranking contestant from California, Arizona and New Mexico for the contest. She is a standard equipped Eaglerock airplane.

Mrs. Workman has nineteen hours of flying instruction to her credit and is at present studying aerodynamics and meteorology. She hopes to secure a commercial pilot's license in the near future. When the Eaglerock award was presented to her, she was accompanied by Mrs. Bobby Trout here from Los Angeles, and their child, who are planning to visit here when they fly to the northern city.

Mrs. Workman will be graduated from San Diego State College on August 1, and she hopes to live up to her new name, "the flying school-teacher."

EXTEND TIME LIMIT IN GARDEN CONTEST

SOUTH GATE, July 21.—The garden and lawn contest sponsored by the South Gate Women's Club, in which there are now more than twenty entrants, has extended the time limit until August 1, as several others are believed planning to enter.

The judging of the lawns and gardens will be based on several points outlined by the club, which will include a comparison of the work done this year and last. The persons having gardens and lawns are being arranged, and an effort will be made to have a number of movie stars as features. Jack Retlaw, manager of a local theater, is chairman of the celebration committee.

CITY SUFFERS LOSS

Sutherland Dam Fiasco Has Cost Taxpayers of San Diego More Than \$1,300,000 to Date

SAN DIEGO, July 21.—Another chapter in the Sutherland Dam fiasco was written last week when the last of the options to purchase lands in the San Pasqual Valley expired, piling up the loss on the project to more than \$1,300,000 up to the present time, according to records of the City Auditor. Under the terms of contracts entered into with the ranchers, the city is obligated to pay an additional 50 per cent for liquidated damages, amounting to nearly \$400,000.

On the fifteen options with own-Sutherland Dam, which engineers declare is a worthless asset. As a result of the cessation of operations at the dam site when available funds were exhausted the contractors, Edwards, Widley & Dixon, have a suit now pending against the city for \$603,654.83, carrying interest at 7 per cent.

The option on the San Pasqual lands were secured by Robert Cowles, head of the water-development bureau under Fred A. Rhodes, then city engineer. The price varied in proportion to the water rights, from \$71.43 to \$600 an acre, or an average of \$235.45. The following payments have been made on the options, prior to expiration last week: George Pringle, \$25,000; F. Herbert Judson, \$11,918; George G. Pringle, \$25,000; Everett Peck, \$25,000; Peter George, \$11,950; A. C. Marchant, \$11,950; E. H. Webb, \$40,900; Henry Johnson, \$25,000; Lillian P. Judson, \$25,000; Mary Judson, \$12,000; Yousa Dyer, \$25,000; Lucius Dyer, \$25,000; Eugene Price, \$25,000; P. M. White, \$40,000; Ray Trussell, \$12,500.

NEW CITY PROPOSED

Loma Linda and Mission Districts Consider the Possibility of Incorporation

LOMA LINDA, July 21.—Incorporation of the Loma Linda and Mission districts as a municipality is being considered according to reports circulated persistently yesterday. Proponents of the plan say that there are between 1500 and 1700 registered voters in the proposed city limits and an assessed valuation in excess of \$2,500,000.

In the ordinary course of the city, the new city would be of the sixth class with a board of five trustees and the usual departments for streets, engineering, sanitation, police, fire, water and wharves. The principal responsibilities might be assumed by the five trustees. If the city would come in under a special charter department and city officials would be provided according to the plan drafted in a document voted upon by the people and accepted by the state. The principal object of the proposed incorporation is as it affects the political situation. Some see in it the Loma Linda and Mission Township expression in a unit, with its 1500

less other local issues. Never particularly friendly toward Redlands schools and superintendents, it is pointed out by some that such an incorporation would make the opposition, if it actually exists, even more effective.

Superior Eight of Redlands remarked yesterday that he does not view the movement with alarm but admitted that there might be some changes in the political aspect of it. It is pointed out by some that such an incorporation would make the opposition, if it actually exists, even more effective.

A 38-caliber revolver which had been used on the bed near the cutting hand of Mrs. Moore and there were powder burns on the hand. Both Mr. and Mrs. Moore had been shot through the head. There was also a letter addressed to the son, Les Moore, in the handwriting of his mother, saying, "We are both tired of it all, and followed by a will disposing of their property among the four children, two sons and two daughters."

As I wrote you this morning Les Moore was awakened by telephone call. When he answered the phone it was his mother and she said, "I want you to be sure and stop by the house when you get to work in the morning." He asked, "What is the matter?" Her answer was, "Your father has been pre-arranged to die in the morning."

Mrs. Moore told her that he would be right up, but he wouldn't wait until morning. But she ordered him to stop by the house in the morning. "It's all right now and he is sleeping so I don't want you to bother him, I just want you to be here when he wakes up," she said. When he descended and wanted to come immediately she insisted that he wait until morning.

About 7 o'clock this morning he went to the house. The door was all locked and when he knocked there was no answer. Becoming alarmed, he went to the bedroom window and saw his father lying on the bed. He rushed to the police station, officers accompanied him to the house, the door was forced open and the bodies were found. Mrs. Moore had been shot in the left arm and had carefully disposed of all the personal effects, named the disposition of the bodies, and had gathered with it pieces of jewelry and keepsakes.

Mr. and Mrs. Moore have been married five years. Mrs. Moore has been with the E. M. Cope Commercial Company and she has been a member of the Redlands branch of the Women's Relief Corps. They had reared their children in Redlands, two sons and two daughters, all of whom are married now. The children are now living in the city. It is certain that financial difficulties were not the trouble for the couple, as they had a fine home on Cajon street.

The bodies were removed to the Down & Phipps funeral parlors and placed in the city morgue. The children who survive them are Earl W. Moore of Redlands, Les M. Moore of Redlands, and Mrs. Gena Moore of Redlands.

As witness an incident in connection with the examination for new driver's licenses, being conducted. One of the applicants asked Police Chief Don Johnson yesterday if, in case he took his driver's examination here, would he be permitted to drive his car outside the city limits.

Upon being assured that the local examination was strictly correct, the applicant said he was an incorporated city, functioning under the laws of the State of California, the questioner was still dubious. Perhaps you'd better try Santa Ana," he suggested.

EXPOSITION PLANNED BY CENTINELA VALLEY

INGLEWOOD, July 21.—What will be known as the Centinela Valley Exposition will be held at Mines Field, the Los Angeles Municipal Airport, from September 1 to September 10, and during the time that the Graceland is there, it was announced at a meeting of the Inglewood Chamber of Commerce last night by the president, A. E. Chamberlain.

Not only Inglewood, but a number of other valley and beach cities, will join in sponsoring and planning the exposition, it was said further. Indorsement of the project has already been given by representatives of the cities of Manhattan Beach, Hawthorne, Lennox, El Segundo, the Vermont-Manchester Business Men's Club and the South-West Chamber of Commerce. A meeting of officials from various communities to effect a permanent organization has been called for Monday night at Hawthorne.

SERVICE CLUBS TO FORM SCOUT TROOP

CUCAMONGA, July 21.—One of the outstanding undertakings of Cucamonga service clubs for the summer is formation of a Boy Scout troop for boys of the community. The troop committee is headed by Oscar Whitney, chairman. The plan is to have the troop organized by the time school opens in the fall, and the organization will then function with other troops of the Cucamonga district under supervision of Lex Lucas, Chaffey Scout executive.

VALUABLE RELIC

SAN GABRIEL, July 21.—C. G. Threlkeld, president of the Scotch Rite Club of the Alhambra district is the possessor of a gavel made of solid ivory fashioned from the tusk of a mastodon. The tusk was dug from the frozen ground of the Yukon by J. M. P. Ahlert of Alhambra, who formerly was an Alaskan miner. It was discovered eighty feet below the surface and weighed 275 pounds. Ahlert presented the gavel to Threlkeld at the last meeting of the club held at the latter's home here. It will be a permanent emblem of the preceding office.

WOMAN JURIST CLUB SPEAKER AT SAN DIEGO

SAN DIEGO, July 21.—Florence E. Allen, judge of the Supreme Court of Ohio, who has the distinction of being the only woman in the United States to hold a place on a Supreme bench, is in San Diego for a visit at the home of a sister, Mrs. Harrison G. Sloane here.

Allen spoke on the subject of "The one thing the world needs," at a local church today.

Judge Allen is just beginning her summer tour of the Pacific States. She is in San Diego on her way to San Francisco, where she will be in residence in Columbus, her residence in Cleveland.

Judge Allen is a non-partisan club, said Mrs. Sloane, "but if my sister has any politics she is a Democrat. In Ohio she is a Democrat, but in the last election, when she was re-elected for her second six-year term, she ran far ahead of the Democrats. She is a Republican club."

Judge Allen made an address recently before the State Bar Association of Ohio on the subject of "The Living Power of Law." This address attracted wide attention and was broadcast in pamphlet form. Previous to her elevation to the Ohio Supreme Court, Judge Allen was judge of the Appellate Court and also an associate justice in Cuyahoga county, Ohio.

Approximately \$125,000 more is asked by the Supervisors in their budgets this year for road building and maintenance than the total granted last year. It was revealed yesterday in the final check over by the county auditor's office.

A total of \$740,850 is the amount asked for the fiscal year 1937. The largest expenditure proposed for this fiscal year in roads is in the fifth district, from which Chairman Frecker comes. He has a proposal of funds totaling \$225,000 as compared to \$170,000 last year. The chairman of the board has an estimate road-building program outlined, the most important part being the completion of the Pecos Canyon highway, which provides an interior route from Santa Maria to Santa Rosa and thence to Santa Barbara by way of the San Marcos Road.

STANDING OF CITY IS QUESTIONED

MONTEREY PARK, July 21.—There is at least one resident of this city whose mind is not quite clear as to the status of Monterey Park in relation to the State of California.

As witness an incident in connection with the examination for new driver's licenses, being conducted. One of the applicants asked Police Chief Don Johnson yesterday if, in case he took his driver's examination here, would he be permitted to drive his car outside the city limits.

Upon being assured that the local examination was strictly correct, the applicant said he was an incorporated city, functioning under the laws of the State of California, the questioner was still dubious. Perhaps you'd better try Santa Ana," he suggested.

SCHOOL GROUNDS TO BE ENLARGED

ALHAMBRA, July 21.—Purchase of two pieces of property for additions to the Ramona school has been authorized by the Board of Education. The price is \$14,900, which will be paid from a recent bond issue. The addition is a corner piece of 100 feet on Norwood Place and 250 feet on South Fifth street. Crowded conditions at Ramona school have necessitated using part of the nearby school grounds for extra classrooms.

The board is also seeking land for additions to the Thos school in Monterey Park. Offers of property suitable for this purpose have been taken under advisement.

CITRUS CROP GOOD, SAYS INSPECTOR

UPLAND, July 21.—With Upland's citrus crop estimated at 70 per cent of normal by J. Fred Anderson, horticultural inspector for Upland district, optimism among fruit men is considerably stronger. Anderson has counted the crop of citrus trees in the district and says the fruit is larger and prospects are fine for a good season.

GOLD IN CITY STREET

Workmen for Telephone Company Dig Up Precious Metal

ALHAMBRA, July 21.—That's gold under the street, right in the heart of Alhambra, where workmen for the Pacific Telephone and Telegraph company were excavating a ditch for telephone conduits on Main street. The find was recognized by P. J. Schaefer, company inspector, who was formerly a miner.

Schaefer took home a paper sack full of high-grade gold dust, which he had been digging up from the excavation in front of the high school, and panned it out. The result was a nugget of coarse gold as large as a man's fingernail, numerous tiny particles of platinum and a small ruby. The dirt was taken from a depth of nine feet under the pavement of Main street. Schaefer believes that a shaft from ten to twenty feet deeper would disclose a mass of coarse gravel with a rich gold and platinum content.

Donald McKellar, inspector employed by the city street department, declared that the site of the find is an old washbed. Indications are that a second mass of gold which is to be dug about a block east of the first "strike" will be richer diggings, according to Schaefer. An excavation several

Tragic Death of Baby Girl Reunites Pair

LONG BEACH, July 21.—(Exclusive)—Thursday night Le Roy and Marion Morrison separated and lost their little girl, Carol, 2½ years of age, to its grandmother's to live, according to report of Detective Charles Charles Crow.

Thought, over the body of their girl, they are reunited, according to the police report. The child, Mrs. Nellie Deane, 1930 Cherry avenue, was a quantity of antipaste and died in agony at the Community Hospital. Police are determined to determine just what happened to the child. It had been found on the floor. The case has been turned over to the coroner and an investigation is being conducted by the police.

Edison Chief Dies in East

NORTHAMPTON (N. Y.) July 21.—Thomas A. Murray, senior vice-president of the New York Edison Company and inventor of electrical appliances, died today at his home here. He was 68 years of age.

Mr. Murray is said to have been one of the most prominent men in the electrical industry.

43 "Branch Offices" in the Downtown District

Times Want Ad collection boxes are located in lobbies of forty-three of the principal downtown office buildings. Want ad copy and answers to Times box numbers deposited in these boxes receive prompt and careful attention. Collections are made every hour during the day.

YOUNG ACTRESS WINS CONTRACT

Lita Chevret

Outstanding work in a small part given her during the recent filming of "Rio Rita" has resulted in the R-K-O. studio signing Lita Chevret, young actress, to a year's contract. It was learned yesterday.

Selected by Director Luther Reed without preparation for a difficult role with Bert Wheeler and Bob Woolsey, featured comedians from the original stage cast of "Rio Rita," Miss Chevret was declared by the two comedians to have given the best interpretation of the part of anyone with whom they have played.

CAT-FIDDLE QUATRAIN FITS HERE

Mother-Goose Going on in Chinese Place Cause Police to Jump Over

Wails of a Chinese bull fiddle and the cries of two black cats took police to the apartment of Louis Wong Sam, 608 South Wall street, and resulted in the arrest of Sam and a companion and the confiscation of \$2000 worth of opium last night. Five other Chinese were in the house, but they were permitted to go after questioning.

Wong Sam and Wing Wong Sam, the others arrested, were in an apartment when Detective Lieutenant Kirkpatrick, Roebuck and Hames entered the apartment where they had been attracted by the strange combination of sound.

According to the released Chinese they visited Wong Sam and found him in a stupor. Seeking to awaken him one of them began playing the bull fiddle. The two black cat pets of Sam immediately set up howls.

This was considered great amusement by the visiting Chinamen and the louder the fiddle was played the louder became the yowls of the cats.

Added to this weird commotion was the loud laughter of the Chinese. Lieut. Kirkpatrick, who was driving the police car, cruised past the house at one of the loudest points of the entertainment. He stopped the car so quick that Roebuck and Hames pitched forward.

"Great Caesar, what's that?" whispered Roebuck in an awed, hushed voice.

Sealantly the three detectives climbed the stairs and pushed open the door. Seven Chinese were in the room. Two of them were asleep. One of them was playing the big fiddle, four of them were rocking in laughter and the two cats were in the center of the floor yowling.

Sam and Wing Wong Sam were booked for possession of opium and the cats were chased out the back door.

NEW FIELD FOR ESPEE MAN

E. H. Sharpe Terminates Long Service to Take Post With Aviation Corporation

Edward H. Sharpe, assistant manager of development and colonization for the Southern Pacific, has resigned to assume direction of public relations for the Aviation Corporation, it was learned yesterday. His association with the Espee and affiliated companies in San Bernardino, Los Angeles and San Francisco has covered a period of seventeen years. He has been identified with that company throughout the West in a public relations capacity.

The Aviation Corporation owns a controlling interest in five air transport companies. These companies operate between fifty-four principal cities in nineteen western and middle-western States. One of them, the Universal Aviation Corporation, operates an air-rail passenger service between New York and California.

The Aviation Corporation likewise controls the Fairchild Aviation Corporation, which manufactures airplanes and parts, and has subsidiary companies manufacturing aerial photographic equipment for making aerial surveys. It has a substantial interest in, and management control of, Roosevelt Field, Inc., and has a number of aviation schools for the training of pilots. The Aviation Corporation companies operate air-mail contracts over approximately 4613 miles and have a passenger mileage of 7639, with a combined airway mileage of 2222.

Mr. Sharpe's headquarters will be in New York City.

Close to 80,000 men were placed on American ships last year by the Shipping Board. Of these nearly 90 per cent were American citizens. Ten years ago 90 per cent were aliens.

WIRT TO APPEAR IN COURT TODAY

Asserted Wife Slayer Will Enter His Plea

Quarrel Over Ring Pawning Blamed in Affair

Suspect Took Poison After Escape Attempt

Leo A. Wirt, asserted bootlegger, accused of shooting his wife to death in their home at 2750 Marano street on June 15, last, is scheduled to appear before Superior Judge Shaw today to enter his plea to the charge. He will be represented by Attorney Robert E. O'Neill while W. R. McKay will represent the District Attorney.

It is charged that Wirt quarreled with his wife a few minutes before the shooting over the pawning of her diamond ring. Wirt, police assert, had called a pawnbroker to his home and wished to obtain a loan on his wife's ring. She objected and Wirt is charged with seizing the shotgun and fatally wounding Mrs. Wirt.

After the shooting, according to officers, Wirt stole two automobiles to effect his escape and then swallowed poison in an effort to end his life. He was captured two days later hiding in the home of a friend in the town of Stanton.

DIRECTOR OF ADVERTISING CLUB QUILTS

Arthur Lee on August 1 Will Retire to Manage His Own Corporation

Arthur Lee, managing director of the Advertising Club of Los Angeles and the Better Business Bureau, is retiring from that position, which he has held for the last fifteen months, to return to the management of his own business, the Worthington-Lee Corporation, of which he is president. His resignation becomes effective August 1. No successor yet has been named.

The Advertising Club of Los Angeles is the second largest club of its kind in the world, and is one of the few clubs which still is operating the Better Business Bureau as a department of the organization. This plan of operation is in accordance with the expressed wish of the business interests which support the bureau.

Mr. Lee, during the period of his administration was responsible for the inauguration of the "clean-up" program of some forms of objectionable radio advertising, and for the launching of the radio broadcast program over six of the major stations warning the public of how it best can protect itself against many schemes designed to get its money without giving full value in return.

ONE MAN KILLED WHEN AUTO TIPS

(Continued from First Page)

WOMAN STRUCK

Mr. E. H. Measick, 65, who resides in the 1200 block on West Fourth street, was unconscious and in a dying condition at Georgia-street Receiving Hospital last night as the result of being knocked down in front of 421 Bixler street by a car reported driven by Warner Stone, 623 South Bixler street. The woman received a fractured skull.

John Hall, 58, of 338 East Ninety-ninth street, also received a skull fracture in the same accident. Stone was questioned by police and said a swerving taxicab obscured the two pedestrians.

Josie Sticks, 3-year-old negro child, was struck in front of her home last night at 1847 East Thirtieth street, by a car police reported was driven by Leon Hall of 1811 East Twenty-first street. The girl suffered a skull fracture and fractured right leg. She was removed to General Hospital, where she was given slight chance of recovery.

Cafe Closings Sought in Suits

Two statement suits, involving small cafes along the Coast highway, were filed in the United States District Court.

The suits seek the closing of the Palm bar, formerly the Oceano billiard parlor, at Oceano, near Pismo Beach, and the Cottage bar at Pismo Beach.

ACTRESS ADMITS BEING ENGAGED

Sue Carol

SUE CAROL CONFESSES BETROTHAL

Picture Actress Appears in Public With Ring Given Her by Nick Stuart

It took a huge square-cut diamond ring finally to make Sue Carol, motion picture actress, confess her engagement to Nick Stuart. She wore the ring for the first time in public yesterday and it is so large that it couldn't escape notice.

That Miss Carol and Stuart are engaged was a foregone conclusion in Hollywood, but to get them to admit it was another thing. She has had the ring for several months, but not until yesterday did they decide to let their friends know.

"We are at last ready to admit our engagement," Miss Carol said. "We have made no plans as yet for our wedding and it will be several months more."

The young screen players both are under contract at the Fox Film studios.

It is charged that Wirt quarreled with his wife a few minutes before the shooting over the pawning of her diamond ring. Wirt, police assert, had called a pawnbroker to his home and wished to obtain a loan on his wife's ring. She objected and Wirt is charged with seizing the shotgun and fatally wounding Mrs. Wirt.

After the shooting, according to officers, Wirt stole two automobiles to effect his escape and then swallowed poison in an effort to end his life. He was captured two days later hiding in the home of a friend in the town of Stanton.

A CHUCKLE FOR EVERYBODY

THE RETURN OF TARZAN

By Edgar Rice Burroughs

GASOLINE ALLEY

Rest In Peace

Tarzan gave himself up for lost when the priestesses, forming in two lines, marched about him. He noted a combination among the priestesses. A burly, gorilla-like one tried to claim a smaller one's place in the line awaiting the victim's life-blood. Tarzan heard his grumble and growl as he, the high priestess, ordered him back.

Standing above Tarzan in began an incantation. While she slowly raised her left arm, a knife aloft. It seemed ages to the ape-man before her arm ceased its upward progress and high above the unsheathed blade. Slowly it started downward. Still he heard the shaggy priest's voice rising louder and louder.

Tarzan rolled his head in the direction of the sound in time to see the burly fellow leap upon a priestess and dash out her brains! Then, just happened which Tarzan had witnessed many times among his own tribe. There was scarcely any of the males of the forest that did not at times fall prey to it. The priest went mad!

With fearful cries of rage he ran smack, dealing terrible blows, slaking his yellow fangs into each luckless victim. And during it, La stood with poised knife above Tarzan, her eyes fixed in horror upon the maniacal thing dealing death to her votaries. Now in the emptied room remained only the dead and dying, the victim upon the altar, the high priestess—and the madman!
